## Annual Management Report of Fund Performance

for the financial year ended August 31, 2011

All figures are reported in Canadian dollars unless otherwise noted.

This annual management report of fund performance contains financial highlights but does not contain the complete annual financial statements of the investment fund. If you have not received a copy of the annual financial statements with this annual management report of fund performance, you can get a copy of the annual financial statements at your request, and at no cost, by calling us toll-free at 1-888-888-3863, by writing to us at Renaissance Investments, 1500 University Street, Suite 800, Montreal, QC, H3A 3S6, by visiting the SEDAR website at [www.sedar.com](http://www.sedar.com), or by visiting [www.renaissanceinvestments.ca](http://www.renaissanceinvestments.ca).

Unitholders may also contact us using one of these methods to request a copy of the investment fund's proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure.

### Management Discussion of Fund Performance

#### Investment Objective and Strategies

Investment Objective: Frontiers International Equity Pool (the *Pool*) seeks to achieve long-term capital growth by investing in a diversified portfolio consisting primarily of equity securities of companies located primarily in Europe, Australia, and the Far East.

Investment Strategies: The Pool invests primarily in common shares, but may also buy securities that are convertible into common shares. When making investment decisions, a combination of investment styles may be employed, such as growth- and value-oriented strategies.

#### Risk

The Pool is an international equity fund that is suitable for investors who can tolerate the average investment risk associated with foreign equity securities and who are seeking the potential capital appreciation of international companies.

For the period ended August 31, 2011, the Pool's overall level of risk remains as discussed in its simplified prospectus.

#### Results of Operations

Multiple portfolio sub-advisors provide investment advice and investment management services to the Pool. These portfolio sub-advisors use different investment styles and the percentage of the Pool allocated to each portfolio sub-advisor will change from time to time.

- From September 1, 2010 to May 1, 2011, BlackRock Financial Management Inc. (*BlackRock*): International Equity Value, approximately 45%.
- Effective May 2, 2011, del Rey Global Investors, LLC (*del Rey*): International Equity Value, approximately 45%.
- Walter Scott & Partners Limited (*Walter Scott*): International Equity Growth, approximately 45%.
- Pictet Asset Management Limited (*Pictet*): International Small-Capitalization Equity, approximately 10%.

The commentary that follows reflects the views of the portfolio sub-advisors and provides a summary of the results of operations for

the period ended August 31, 2011. All dollar figures are expressed in thousands, unless otherwise indicated.

- The Pool's net asset value decreased by 6% during the period from \$184,198 as at August 31, 2010 to \$173,042 as at August 31, 2011. Net redemptions of \$16,300 were partially offset by positive investment performance, resulting in an overall decrease in net asset value.
- Class A units of the Pool posted a return of 0.7% for the period. The Pool's primary benchmark, the MSCI EAFE Index (the *benchmark*), returned 1.3% for the same period. The Pool's return is after the deduction of fees and expenses, unlike the benchmark. See *Past Performance* for the returns of other classes of units offered by the Pool.
- A combination of monetary easing policies and slowly improving growth data continued to underpin equities during the final quarter of 2010. This happened in spite of the sovereign debt risk within Europe, which had seen Ireland accepting support for its banking system and bond yields rising sharply in other troubled countries. Tragic events in Japan and increasing political turbulence in the Middle-East began to dampen investor enthusiasm in March. The subsequent economic disruption from the Japanese earthquake, rising inflation in emerging markets, and an increase in the price of oil also caused investors to reassess the prospects for global growth. However, it was during the last three months of the period that the economic and political storm clouds truly broke, triggering a plunge in equity markets. In Europe, the failure to deal with the sovereign debt crisis increased stress on the Euro. Also, weak data for both consumer confidence and economic activity both in Europe and the U.S. led to renewed fears of a global recession.
- The Pool's largest overweight position relative to the benchmark was information technology, while the Pool's largest underweight was in financials. In terms of country allocation, the largest overweight was to Japan, while the Pool was underweight major European countries such as the United Kingdom, Germany, and France. The Pool's top three holdings were Novartis AG, Tesco PLC, and China Mobile.

- The International Equity Growth portion of the Pool performed in line with the benchmark. In terms of sector allocation, the largest underweights were in materials, financials, and industrials while the largest overweights were in energy, consumer staples, and information technology. In terms of geographical allocation, this portion of the Pool was overweight Hong Kong and Japan, and underweight Europe, notably Germany, France, and Italy. The International Equity Growth portion's largest positions were in Nestlé SA, Canon Inc., and Fanuc Ltd.
- The International Equity Value portion of the Pool has been sub-advised by del Rey since May 2, 2011. Prior to del Rey, this portion of the Pool was sub-advised by BlackRock. At the end of the period, the del Rey portion of the Pool held 65 securities, with its largest sector overweight in information technology and telecommunications and its largest underweight in financials. In terms of country allocation, the largest overweight was Japan while the largest underweight was in Europe, notably the United Kingdom. The three largest positions at the end of the period were Novartis AG, Sanofi-Aventis SA, and Newmont Mining Corp. Holding Co.
- The International Small-Capitalization Equity portion of the Pool significantly outperformed the Pool's benchmark over the period. At the end of the period, the Pictet portion of the Pool held 130 equity securities. The largest sector overweights relative to the benchmark were consumer discretionary, information technology, and industrials, while the largest underweight was in financials. In terms of geographical allocation, Japan, Italy and Germany were among the largest overweights. The three largest holdings in the small cap portion were Rhodia SA, Daphne International Holdings Ltd, and Sundrug Co. Ltd.

#### Recent Developments

Effective May 2, 2011, del Rey Global Investors, LLC was appointed as one of the portfolio sub-advisors for the Pool, replacing BlackRock Financial Management Inc.

#### International Financial Reporting Standards (IFRS)

In January 2011, the Accounting Standards Board (AcSB) amended the Introduction to Part I of the CICA Handbook – Accounting to allow investment companies, which include investment funds, to adopt IFRS for the first time no later than interim and annual financial statements relating to annual periods beginning on or after January 1, 2013. Investment companies electing to defer the first time adoption may continue to apply existing Canadian generally accepted accounting principles (GAAP) until the changeover to IFRS.

The Pool will defer the first time adoption and adopt IFRS beginning September 1, 2013. As at August 31, 2011, the Manager has developed a changeover plan to meet this timetable.

#### Related Party Transactions

Canadian Imperial Bank of Commerce (CIBC) and its affiliates have the following roles and responsibilities with respect to the Pool, and receive the fees described below in connection with their roles and responsibilities.

#### Manager, Trustee, and Portfolio Advisor of the Pool

CIBC Asset Management Inc., a wholly-owned subsidiary of CIBC, is the manager, trustee, and portfolio advisor of the Pool (CAMI or the Manager). CAMI will receive management fees with respect to the day-to-day business and operations of the Pool, calculated based on the net asset value of each respective class of units of the Pool, as described in the section entitled *Management Fees*. As portfolio advisor, CAMI provides, or arranges to provide, investment advice and portfolio management services to the Pool. CAMI will also compensate its wholesalers in connection with their marketing activities regarding the Pool. From time to time, CAMI may provide seed capital to the Pool.

#### Distributor

The CIBC Wood Gundy division of CIBC World Markets Inc. (CIBC WM) is a dealer through which units of the Pool are sold to investors. CIBC WM is a wholly-owned subsidiary of CIBC. CAMI may pay sales commissions and trailing commissions to these dealers in connection with the sale of units of the Pool. These dealers may pay a portion of these sales commissions and trailing commissions to their advisors who sell units of the Pool to investors.

#### Brokerage Arrangements and Soft Dollars

Portfolio sub-advisors make decisions, including the selection of markets and dealers and the negotiation of commissions, with respect to the purchase and sale of portfolio securities, certain derivative products (including futures) and the execution of portfolio transactions. Brokerage business may be allocated by portfolio sub-advisors, to CIBC WM and CIBC World Markets Corp., each a subsidiary of CIBC. CIBC WM and CIBC World Markets Corp. may also earn spreads on the sale of fixed income, other securities and certain derivative products (including forwards) to the Pool. A spread is the difference between the bid and ask prices for a security in the applicable marketplace, with respect to the execution of portfolio transactions. The spread will differ based upon various factors such as the nature and liquidity of the security.

CIBC WM and CIBC World Markets Corp. may also furnish goods and services, other than order execution, to portfolio sub-advisors, that process trades through them (referred to in the industry as “soft dollar” arrangements). These goods and services assist portfolio sub-advisors with their investment decision-making services to the Pool or relate directly to executing portfolio transactions on behalf of the Pool. In accordance with the terms of the sub-advisory agreements, such soft-dollar arrangements are in compliance with applicable laws. In addition, CAMI may enter into commission recapture arrangements with certain dealers with respect to the Pool. Any commission recaptured will be paid to the Pool.

During the period, the Pool did not pay any brokerage commissions or other fees to CIBC WM or CIBC World Markets Corp. Spreads associated with fixed income and other securities are not ascertainable and, for that reason, cannot be included when determining these amounts.

*Pool Transactions*

The Pool may enter into one or more of the following transactions in reliance on the standing instructions rendered by the Independent Review Committee (*IRC*):

- trade in securities of CIBC;
- invest in the securities of issuers for which CIBC WM, CIBC World Markets Corp. or another related party acts as an underwriter during the distribution of such securities and the 60-day period following the conclusion of such distribution of the underwritten securities to the public;
- purchase of securities from or sell securities to CIBC WM, CIBC World Markets or another related party, where it is acting as principal; and
- purchases or sales of securities of an issuer from or to another investment fund managed by the Manager or an affiliate of the Manager.

The relevant standing instructions require that the transactions (i) be made free from any influence of an entity related to the Manager or any sub-advisor and without taking into account any consideration relevant to an entity related to the Manager or any sub-advisor, (ii) represent the business judgment of the Manager and such sub-advisor, uninfluenced by considerations other than the best interests of the Pool, (iii) be conducted in accordance with the Manager's policies and procedures, and (iv) achieve a fair and reasonable result for the Pool. The Manager is required to report a material breach in respect of the standing instructions to the IRC.

*Custodian*

The custodian holds all cash and securities for the Pool and ensures that those assets are kept separate from any other cash or securities that the custodian may be holding. CIBC Mellon Trust Company is the custodian of the Pool (the *Custodian*). The fees for the services of the Custodian are paid by the Manager and charged to the Pool on a recoverable basis.

*Service Provider*

CIBC Mellon Global Securities Services Company (*CIBC GSS*) provides certain services to the Pool, including securities lending, fund accounting and reporting, and portfolio valuation. Such servicing fees are paid by the Manager, and charged to the Pool on a recoverable basis. CIBC indirectly owns a 50% interest in CIBC GSS.

## Frontiers International Equity Pool

### Financial Highlights

The following tables show selected key financial information about the Pool and are intended to help you understand the Pool's financial performance for the periods ended August 31.

#### The Pool's Net Assets per Unit<sup>1</sup> – Class A Units

	2011	2010	2009	2008	2007
<b>Net Assets, beginning of period</b>	\$ 7.11	\$ 7.55	\$ 8.23	\$ 9.53	\$ 8.87
<b>Increase (decrease) from operations:</b>					
Total revenue	\$ 0.20	\$ 0.14	\$ 0.23	\$ 0.22	\$ 0.23
Total expenses	(0.22)	(0.20)	(0.18)	(0.23)	(0.26)
Realized gains (losses) for the period	0.31	0.15	(1.58)	(0.32)	0.58
Unrealized gains (losses) for the period	(0.15)	(0.54)	0.59	(0.96)	0.11
<b>Total increase (decrease) from operations<sup>2</sup></b>	\$ 0.14	\$(0.45)	\$(0.94)	\$(1.29)	\$ 0.66
<b>Distributions:</b>					
From income (excluding dividends)	\$ –	\$ –	\$ 0.01	\$ –	\$ –
From dividends	–	–	–	–	–
From capital gains	–	–	–	–	–
Return of capital	–	–	–	–	–
<b>Total Distributions<sup>3</sup></b>	\$ –	\$ –	\$ 0.01	\$ –	\$ –
<b>Net Assets, end of period</b>	\$ 7.15	\$ 7.11	\$ 7.55	\$ 8.23	\$ 9.53

<sup>1</sup> This information is derived from the Pool's audited annual financial statements. The net assets per unit presented in the financial statements differs from the net asset value calculated for portfolio pricing purposes. An explanation of these differences can be found in the notes to the financial statements.

<sup>2</sup> Net assets and distributions are based on the actual number of units outstanding at the relevant time. The total increase (decrease) from operations is based on the weighted average number of units outstanding during the period.

<sup>3</sup> Distributions were paid in cash, reinvested in additional units of the Pool, or both.

#### Ratios and Supplemental Data – Class A Units

	2011	2010	2009	2008	2007
<b>Total Net Asset Value (000s)<sup>4</sup></b>	\$66,042	\$78,448	\$105,274	\$141,808	\$180,028
<b>Number of Units Outstanding<sup>4</sup></b>	9,231,082	11,037,095	13,940,314	17,232,751	18,885,710
<b>Management Expense Ratio<sup>5</sup></b>	2.82%	2.69%	2.65%	2.64%	2.65%
<b>Management Expense Ratio before waivers or absorptions<sup>6</sup></b>	3.10%	3.03%	2.99%	2.78%	2.77%
<b>Trading Expense Ratio<sup>7</sup></b>	0.18%	0.33%	0.37%	0.26%	0.15%
<b>Portfolio Turnover Rate<sup>8</sup></b>	60.87%	84.48%	104.10%	66.09%	43.79%
<b>Net Asset Value per Unit</b>	\$7.15	\$7.11	\$7.55	\$8.23	\$9.53

<sup>4</sup> This information is provided as at August 31 of the period(s) shown.

<sup>5</sup> Management expense ratio is based on the total expenses of the fund (excluding commissions and other portfolio transaction costs), incurred by or allocated to a class of units for the period shown, expressed as an annualized percentage of the daily average net asset value of that class during the period.

<sup>6</sup> The decision to waive and/or absorb management fees and operating expenses is at the discretion of the Manager. The practice of waiving and/or absorbing management fees and operating expenses may continue indefinitely or may be terminated at any time without notice to unitholders.

<sup>7</sup> The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of the daily average net asset value during the period. Spreads associated with fixed income securities trading are not ascertainable and, for that reason, are not included in the trading expense ratio calculation.

<sup>8</sup> The portfolio turnover rate indicates how actively the portfolio sub-advisor manages the portfolio investments. A portfolio turnover rate of 100% is equivalent to a fund buying and selling all of the securities in its portfolio once in the course of the period. The higher a portfolio turnover rate in a period, the greater the trading costs payable by a fund in the period, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a fund.

Spreads associated with fixed income securities trading are not ascertainable and, for that reason, are not included in the trading expense ratio calculation.

<sup>8</sup> The portfolio turnover rate indicates how actively the portfolio sub-advisor manages the portfolio investments. A portfolio turnover rate of 100% is equivalent to a fund buying and selling all of the securities in its portfolio once in the course of the period. The higher a portfolio turnover rate in a period, the greater the trading costs payable by a fund in the period, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a fund.

## Frontiers International Equity Pool

### Management Fees

The Pool, either directly or indirectly, pays one or more annual management fees to CAMI in consideration for the provision of, or arranging for the provision of, management, distribution, and portfolio advisory services. These fees are calculated as a percentage of the Pool's class level net asset value and are calculated and credited daily, and paid monthly. The Pool is required to pay all applicable taxes on the management fees.

The following table shows a breakdown of the services received in consideration of the management fees, as a percentage of the management fees collected from the Pool for the period ended August 31, 2011. These amounts do not include waived fees or absorbed expenses. CAMI charges a management fee directly to, or as directed by, Class O unitholders, or dealers and discretionary managers on behalf of Class O unitholders.

	Class A Units	Class C Units	Class I Units
Sales and trailing commissions paid to dealers	60.31%	48.21%	0.00%
General administration, investment advice, and profit	39.69%	51.79%	100.00%

### Past Performance

The performance data provided assumes reinvestment of distributions only and does not take into account sales, redemption, distribution, or other optional charges payable by any unitholder that would have reduced returns. Past performance does not necessarily indicate how a fund will perform in the future.

The Pool's returns are after the deduction of fees and expenses, and the difference in returns between classes is primarily due to the difference in management expense ratio. See the section entitled *Financial Highlights* for the management expense ratio.

### Year-by-Year Returns

These bar charts show the annual performance of each class of units of the Pool for each of the periods shown, and illustrates how the performance has changed from period to period. The bar charts show, in percentage terms, how much an investment made on September 1 would have increased or decreased by August 31, unless otherwise indicated.

#### Class A Units

<sup>a</sup>Return is for the period from October 1 of the previous year to September 30 of the year shown.

<sup>b</sup>2006 return is for the period from October 1, 2005 to August 31, 2006.

Frontiers International Equity Pool

Class C Units

<sup>a</sup>2006 return is for the period from February 16, 2006 to August 31, 2006.

Class I Units

<sup>a</sup>2006 return is for the period from February 17, 2006 to August 31, 2006.

Class O Units

<sup>a</sup>2005 return is for the period from March 15, 2005 to September 30, 2005.

<sup>b</sup>2006 return is for the period from October 1, 2005 to August 31, 2006.

**Annual Compound Returns**

This table shows the annual compound return of each class of units of the Pool for each indicated period ended on August 31, 2011. The annual compound total return is also compared to the Pool's benchmark(s).

	1 Year	3 Years	5 Years	Since 10 Years* or Inception*
Class A units	0.7%	-4.5%	-4.2%	-1.9%
MSCI EAFE Index	1.3%	-5.1%	-3.5%	0.7%

## Frontiers International Equity Pool

	1 Year	3 Years	5 Years	10 Years* or Inception*
Class C units (Inception Date – February 16, 2006)	1.3%	– 3.9%	– 3.6%	– 2.7%
MSCI EAFE Index	1.3%	– 5.1%	– 3.5%	– 2.3%
Class I units (Inception Date – February 17, 2006)	2.5%	– 2.9%	– 2.6%	– 1.5%
MSCI EAFE Index	1.3%	– 5.1%	– 3.5%	– 2.3%
Class O units (Inception Date – March 15, 2005)	3.5%	– 1.9%	– 1.6%	1.3%
MSCI EAFE Index	1.3%	– 5.1%	– 3.5%	– 0.5%

\*If a class of units has been in existence for less than 10 years, the annual total compound return since inception is shown.

**MSCI EAFE Index** is a free float-adjusted market capitalization index of stocks of companies of developed market equity indices covering 21 different countries in Europe, Australia, and the Far East.

A discussion of the relative performance of the Pool compared to its primary benchmark(s) can be found in *Results of Operations*.

### Summary of Investment Portfolio (as at August 31, 2011)

The summary of investment portfolio may change due to ongoing portfolio transactions of the investment fund. A quarterly update is available by visiting [www.renaissanceinvestments.ca](http://www.renaissanceinvestments.ca). The Top Positions table includes a fund's 25 largest positions. For funds with fewer than 25 positions in total, all positions are shown. Cash and cash equivalents are shown in total as one position.

Portfolio Breakdown	% of Net Asset Value	Top Positions	% of Net Asset Value
Japan	27.37	Novartis AG, Registered	2.86
Other Countries	20.18	Cash & Cash Equivalents	2.45
United Kingdom	17.68	Tesco PLC	1.98
Hong Kong	6.41	China Mobile Ltd.	1.53
Switzerland	6.08	Nestlé SA, Registered, Series 'B'	1.52
France	5.72	Sanofi-Aventis SA	1.47
Australia	3.73	Newmont Mining Corp. Holding Co.	1.44
Canada	3.62	Mabuchi Motor Co. Ltd.	1.42
Germany	3.61	Royal Dutch Shell PLC, Class 'B'	1.41
Spain	3.18	Canon Inc.	1.39
