### Management Discussion of Fund Performance

#### Investment Objective and Strategies

**Investment Objective:** Renaissance Canadian Bond Fund (the *Fund*) seeks to obtain a high level of current income consistent with preservation of capital through investment primarily in bonds, debentures, notes, and other debt instruments of Canadian governments, financial institutions, and corporations.

**Investment Strategies:** The Fund intends to position its portfolio based primarily on average term-to-maturity and security selection. Adjustments to the portfolio will be based on the portfolio sub-advisor's outlook for interest rates and review of economic conditions both inside and outside of North America, along with detailed issuer credit reviews.

#### Risk

The Fund is a Canadian fixed income fund that is suitable for medium-term investors who can tolerate low investment risk.

For the period ended August 31, 2011, the Fund's overall level of risk remains as discussed in the simplified prospectus.

#### Results of Operations

The portfolio sub-advisor of the Fund is CIBC Global Asset Management Inc. (CGAM). The commentary that follows reflects the views of CGAM and provides a summary of the results of operations for the period ended August 31, 2011. All dollar figures are expressed in thousands, unless otherwise indicated.

- The Fund's net asset value increased by 45% during the period, from \$173,946 as at August 31, 2010 to \$252,836 as at August 31, 2011. Net sales of \$66,849, including sales from a portfolio product that holds units of the Fund, and positive investment performance resulted in an overall increase in net asset value.
- Class A units of the Fund posted a return of 4.2% for the period. The Fund's primary benchmark, the DEX Universe Bond Index (the *benchmark*) returned 5.5% for the same period. The Fund return is after the deduction of fees and expenses, unlike the benchmark. See *Past Performance* for the returns of other classes of units offered by the Fund.

- Economic growth deteriorated in the second half of the period. The cumulative effects of natural and man-made disasters at home and abroad, as well as the ongoing European sovereign debt problems, overwhelmed the nascent recovery that had taken place with the assistance of government and central bank stimulus programs.
- The spike in energy prices triggered by political instability in many oil-producing nations largely reversed itself as lower economic activity reduced the demand for oil.
- The Bank of Canada (*BoC*) raised its administered rate by 0.25% to 1.00% in September 2010, but decided against further increases over the remainder of the period due to the slowing global economic momentum and heightened financial uncertainty.
- At the beginning of the period, the duration of investments in the Fund was longer than that of the benchmark. It moved closer to the benchmark at the end of September 2010 as yields reached their lows for the period. In early February 2011, duration was moved longer than the benchmark as the sell-off in bonds was exhausted. In June 2011, as interest rates neared the low end of CGAM's expected range, duration moved closer to neutral.
- Over the period, the Fund remained overweight in the corporate sector, given expectations for stable credit spreads, and remained underweight in the provincial and Government of Canada sectors.
- The Fund benefited from its overweight in the corporate sector, which provided a higher overall yield for the Fund. The duration strategies for the Fund also had a positive impact on performance.
- The Fund outperformed the benchmark as a result of its security mix, which included an underweight in federal and provincial bonds, an overweight in municipal and corporate bonds, and a small allocation to high-yield bonds.

#### Recent Developments

##### *International Financial Reporting Standards (IFRS)*

In January 2011, the Accounting Standards Board (*AcSB*) amended the Introduction to Part I of the CICA Handbook – Accounting to allow investment companies, which include investment funds, to adopt IFRS for the first time no later than interim and annual financial statements

relating to annual periods beginning on or after January 1, 2013. Investment companies electing to defer the first time adoption may continue to apply existing Canadian generally accepted accounting principles (GAAP) until the changeover to IFRS.

The Fund will defer the first time adoption and adopt IFRS beginning September 1, 2013. As at August 31, 2011, the Manager has developed a changeover plan to meet this timetable.

### **Related Party Transactions**

Canadian Imperial Bank of Commerce (CIBC) and its affiliates have the following roles and responsibilities with respect to the Fund, and receive the fees described below in connection with their roles and responsibilities.

#### *Manager, Trustee, and Portfolio Advisor of the Fund*

CIBC Asset Management Inc., a wholly-owned subsidiary of CIBC, is the manager, trustee, and portfolio advisor of the Fund (CAMI or the *Manager*). CAMI will receive management fees with respect to the day-to-day business and operations of the Fund, calculated based on the net asset value of each respective class of units of the Fund, as described in the section entitled *Management Fees*. As portfolio advisor, CAMI provides, or arranges to provide, investment advice and portfolio management services to the Fund. CAMI will also compensate its wholesalers in connection with their marketing activities regarding the Fund. From time to time, CAMI may provide seed capital to the Fund.

#### *Portfolio Sub-Advisor*

CAMI has retained CGAM, a wholly-owned subsidiary of CIBC, as the portfolio sub-advisor of the Fund, to provide investment advice and portfolio management services to the Fund. A portion of the management fees CAMI receives from the Fund will be paid to CGAM.

#### *Distributor*

Dealers and other firms will sell the units of the Fund to investors. These dealers and other firms will include CIBC's related dealers such as the CIBC Investor's Edge discount brokerage division of CIBC Investor Services Inc. (*CIBC ISI*), the CIBC Imperial Service division of CIBC ISI, and the CIBC Wood Gundy division of CIBC World Markets Inc. (*CIBC WM*). CIBC ISI and CIBC WM are wholly-owned subsidiaries of CIBC.

CAMI may pay sales commissions and trailing commissions to these dealers and firms in connection with the sale of units of the Fund. These dealers and other firms may pay a portion of these sales commissions and trailing commissions to their advisors who sell units of the Fund to investors.

#### *Brokerage Arrangements and Soft Dollars*

Portfolio sub-advisors make decisions, including the selection of markets and dealers and the negotiation of commissions, with respect to the purchase and sale of portfolio securities, certain derivative products (including futures) and the execution of portfolio transactions. Brokerage business may be allocated by portfolio sub-advisors, including CGAM, to CIBC WM and CIBC World Markets Corp., each a

subsidiary of CIBC. CIBC WM and CIBC World Markets Corp. may also earn spreads on the sale of fixed income, other securities and certain derivative products (including forwards) to the Fund. A spread is the difference between the bid and ask prices for a security in the applicable marketplace, with respect to the execution of portfolio transactions. The spread will differ based upon various factors such as the nature and liquidity of the security.

Dealers, including CIBC WM and CIBC World Markets Corp., may also furnish goods and services, other than order execution, to portfolio sub-advisors, including CGAM, that process trades through them (referred to in the industry as "soft-dollar" arrangements). These goods and services are paid for with a portion of brokerage commissions and assist portfolio sub-advisors with investment decision making services to the Fund or relate directly to executing portfolio transactions on behalf of the Fund. As per the terms of the portfolio sub-advisory agreements, such soft dollar arrangements are in compliance with applicable laws.

CAMI has entered into an expense reimbursement agreement with CGAM, on behalf of the Fund, which provides that custodial fees directly related to portfolio transactions incurred by the Fund, otherwise payable by the Fund, shall be paid by CGAM and/or dealer(s) directed by CGAM up to the amount of the credits generated under soft dollar arrangements from trading on behalf of the Fund during that month.

In addition, CAMI may enter into commission recapture arrangements with certain dealers with respect to the Fund. Any commission recaptured will be paid to the Fund.

During the period, the Fund did not pay any brokerage commissions or other fees to CIBC WM or CIBC World Markets Corp. Spreads associated with fixed income and other securities are not ascertainable and, for that reason, cannot be included when determining these amounts.

#### *Fund Transactions*

The Fund may enter into one or more of the following transactions in reliance on the standing instructions rendered by the Independent Review Committee (*IRC*):

- trade in securities of CIBC;
- invest in the securities of issuers for which CIBC WM, CIBC World Markets Corp. or another related party acts as an underwriter during the distribution of such securities and the 60-day period following the conclusion of such distribution of the underwritten securities to the public;
- purchase of securities from or sell securities to CIBC WM, CIBC World Markets or another related party, where it is acting as principal; and
- purchases or sales of securities of an issuer from or to another investment fund managed by the Manager or an affiliate of the Manager.

The relevant standing instructions require that the transactions (i) be made free from any influence of an entity related to the Manager or CGAM and without taking into account any consideration relevant to an entity related to the Manager or CGAM, (ii) represent the business judgment of the Manager and CGAM, uninfluenced by considerations other than the best interests of the Fund, (iii) be conducted in accordance with the Manager's and CGAM's policies and procedures, and (iv) achieve a fair and reasonable result for the Fund. The Manager is required to report a material breach in respect of the standing instructions to the IRC.

*Custodian*

The custodian holds all cash and securities for the Fund and ensures that those assets are kept separate from any other cash or securities that the custodian may be holding. CIBC Mellon Trust Company is the custodian of the Fund (the *Custodian*). The fees for services of the Custodian directly related to the execution of portfolio transactions by the Fund are paid by CGAM and/or dealer(s) directed by CGAM up to the amount of the credits generated under soft dollar arrangements from trading on behalf of the Fund during that month. All other fees for the services of the Custodian are paid by the Manager and charged to the Fund on a recoverable basis.

*Service Provider*

CIBC Mellon Global Securities Services Company (*CIBC GSS*) provides certain services to the Fund, including securities lending, fund accounting and reporting, and portfolio valuation. Such servicing fees are paid by the Manager, and charged to the Fund on a recoverable basis. CIBC indirectly owns a 50% interest in CIBC GSS.

## Financial Highlights

The following tables show selected key financial information about the Fund and are intended to help you understand the Fund's financial performance for the periods ended August 31.

<b>Net Asset Value per Unit</b>	\$12.83	\$12.82	\$12.20	\$12.04	\$11.87

<sup>4</sup> This information is presented as at August 31 of the period(s) shown.

<sup>5</sup> Management expense ratio is based on the total expenses of the fund (excluding commissions and other portfolio transaction costs), incurred by or allocated to a class of units for the period shown, expressed as an annualized percentage of the daily average net asset value of that class during the period.

<sup>6</sup> The decision to waive and/or absorb management fees and operating expenses is at the discretion of the Manager. The practice of waiving and/or absorbing management fees and operating expenses may continue indefinitely or may be terminated at any time without notice to unitholders.

<sup>7</sup> The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of the daily average net asset value during the period. Spreads associated with fixed income securities trading are not ascertainable and, for that reason, are not included in the trading expense ratio calculation.

<sup>8</sup> The portfolio turnover rate indicates how actively the portfolio sub-advisor manages the portfolio investments. A portfolio turnover rate of 100% is equivalent to a fund buying and selling all of the securities in its portfolio once in the course of the period. The higher a portfolio turnover rate in a period, the greater the trading costs payable by a fund in the period, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a fund.

**Management Fees**

The Fund, either directly or indirectly, pays one or more annual management fees to CAMI in consideration for the provision of, or arranging for the provision of, management, distribution, and portfolio advisory services. These fees are calculated as a percentage of the Fund's class level net asset value and are calculated and credited daily, and paid monthly. The Fund is required to pay all applicable taxes on the management fees.

The following table shows a breakdown of the services received in consideration of the management fees, as a percentage of the management fees collected from the Fund for the period ended August 31, 2011. These amounts do not include waived fees or absorbed expenses. CAMI charges a management fee directly to, or as directed by, Class O unitholders, or dealers and discretionary managers on behalf of Class O unitholders.

	Class A Units	Class F Units
Sales and trailing commissions paid to dealers	39.05%	0.00%
General administration, investment advice, and profit	60.95%	100.00%

**Past Performance**

The performance data provided assumes reinvestment of distributions only and does not take into account sales, redemption, distribution, or other optional charges payable by any unitholder that would have reduced returns. Past performance does not necessarily indicate how a fund will perform in the future.

The Fund's returns are after the deduction of fees and expenses, and the difference in returns between classes is primarily due to the difference in management expense ratio. See the section entitled *Financial Highlights* for the management expense ratio.

**Year-by-Year Returns**

These bar charts show the annual performance of each class of units of the Fund for each of the periods shown, and illustrates how the performance has changed from period to period. These bar charts show, in percentage terms, how an investment made on September 1 would have increased or decreased by August 31, unless otherwise indicated.

*Class A Units*

<sup>a</sup>Return is for the period from January 1 to December 31 of the year shown.

<sup>b</sup>2006 return is for the period from January 1, 2006 to August 31, 2006.

Class F Units

<sup>a</sup>2004 return is for the period from August 10, 2004 to December 31, 2004.

<sup>b</sup>Return is for the period from January 1 to December 31 of the year shown.

<sup>c</sup>2006 return is for the period from January 1, 2006 to August 31, 2006.

This document may contain forward-looking statements. Forward-looking statements include statements that are predictive in nature, that depend upon or refer to future events or conditions, or that include words such as “expects”, “anticipates”, “intends”, “plans”, “believes”, “estimates”, or other similar wording. In addition, any statements that may be made concerning future performance, strategies, or prospects and possible future actions taken by the fund, are also forward-looking statements. These statements involve known and unknown risks, uncertainties, and other factors that may cause the actual results and achievements of the fund to differ materially from those expressed or implied by such statements. Such factors include, but are not limited to: general economic, market, and business conditions; fluctuations in securities prices, interest rates, and foreign currency exchange rates; changes in government regulations; and catastrophic events. We do not undertake, and specifically disclaim, any obligation to update or revise any forward-looking statements, whether as a result of new information, future developments, or otherwise prior to the release of the next management report of fund performance.
