

Annual Management Report of Fund Performance

for the financial year ended August 31, 2018

All figures are reported in Canadian dollars unless otherwise noted.

This annual management report of fund performance contains financial highlights but does not contain the complete annual financial statements of the investment fund. If you have not received a copy of the annual financial statements with this annual management report of fund performance, you can get a copy of the annual financial statements at your request, and at no cost, by calling us toll-free at 1-888-888-FUND (3863), by writing to us at Renaissance Investments, 1500 Robert-Bourassa Boulevard, Suite 800, Montreal, QC, H3A 3S6, by visiting the SEDAR website at sedar.com, or by visiting renaissanceinvestments.ca.

Unitholders may also contact us using one of these methods to request a copy of the investment fund's proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure.

Management Discussion of Fund Performance

Investment Objective and Strategies

Investment Objective: Renaissance Global Bond Fund (the *Fund*) seeks to preserve capital and provide income and long-term growth, primarily through investment in debt securities denominated in foreign currencies and issued by Canadian or non-Canadian governments, corporations, and financial institutions.

Investment Strategies: The Fund is positioned with respect to country allocation, currency allocation, average term-to-maturity, term structure, and sector allocation. The basis on which these decisions are made comes from the portfolio sub-advisor's review of global macroeconomic and capital market conditions. The Fund's currency strategy is designed to manage the currency/country exposure to protect principal and increase returns.

Risk

The Fund is a global fixed income fund that is suitable for medium- to long-term investors who can tolerate low to medium investment risk.

For the period ended August 31, 2018, the Fund's overall level of risk remains as discussed in the simplified prospectus.

Results of Operations

The Fund's portfolio sub-advisor is Brandywine Global Investment Management, LLC (the *sub-advisor*). The commentary that follows provides a summary of the results of operations for the period ended August 31, 2018. All dollar figures are expressed in thousands, unless otherwise indicated.

The Fund's net asset value increased by 17% during the period, from \$549,475 as at August 31, 2017 to \$644,313 as at August 31, 2018. Net sales of \$113,264 were partially offset by negative investment performance, resulting in an overall increase in net asset value.

Class A units of the Fund posted a return of -2.8% for the period. The Fund's benchmark, the Citigroup World Government Bond Index (the *benchmark*), returned 2.2% for the same period. The Fund's return is after the deduction of fees and expenses, unlike the benchmark's

return. See *Past Performance* for the returns of other classes of units offered by the Fund.

Moderating global growth and trade disputes had an impact on global bond markets during the period. The stabilization of the U.S. dollar was followed by continued strength after its longest period of appreciation in history. The return of a strong U.S. dollar was precipitated by U.S. monetary and trade policies and a shift in the global geopolitical backdrop. U.S.-dollar strength had a far-reaching impact on global currency and bond markets, but its effects were particularly damaging for emerging markets.

Exposure to emerging markets assets detracted from the Fund's performance. The sub-advisor believes that the significant decline in emerging markets currencies in the second quarter of 2018 had little to do with the underlying strength of emerging markets economies. Rather, the decline was largely a result of the rising U.S. dollar, and U.S. and Chinese economic policies. Rising U.S. bond yields and an increase in oil prices also led to a retreat in capital flows. The Fund's underweight exposure to the U.S. dollar also detracted from performance as the currency strengthened.

Overweight exposure to the Swedish krona was another significant detractor from performance, as increasing political uncertainty negatively affected the currency. Over the medium term, the sub-advisor believes that the krona will rebound in response to Swedish economic data. The country's manufacturing and export data has improved, and the Swedish economy continued to benefit from global economic growth.

Other significant detractors from performance included overweight exposure to longer-term Mexican bonds, which were negatively affected by uncertainty surrounding North American Free Trade Agreement negotiations. Overweight exposure to the Brazilian real significantly detracted from performance amid political uncertainty. The sub-advisor believes that Brazil's market volatility should subside following the country's upcoming general election in October 2018.

Overweight exposure to the Malaysian ringgit and Mexican peso were significant contributors to the Fund's performance. The ringgit has proven resilient to the emerging markets decline as a result of the country's low inflation and current account surplus. The Mexican peso rebounded in the latter part of the period as its new president-elect, Andrés Manuel López Obrador, indicated a commitment to fiscal responsibility.

Security selection among U.S. corporate bonds was a moderate contributor to the Fund's performance, as was an overweight allocation to long-term South African government bonds. South African assets rebounded at the beginning of 2018 as the result of new leadership and a stabilizing political backdrop. This led to increased prospects for government reform and improving business confidence.

The sub-advisor increased the Fund's exposure to the Colombian peso and government bonds in March in response to Colombia's improving economy and relatively attractive valuations. Exposure to the Canadian dollar was increased after it declined by almost 3% against the U.S. dollar and many other currencies. Conversely, the currencies of other oil-producing countries showed strength during the first quarter as oil prices rose. In the sub-advisor's view, the Canadian dollar continues to be undervalued.

As the situation in Turkey worsened following the presidential election, the sub-advisor eliminated the Fund's Turkish lira exposure. In February, the Fund's exposure to the Indian rupee was eliminated in exchange for increased exposure to the U.S. dollar. The sub-advisor believes that the rupee is likely to face near-term pressure with regards to inflationary risks. In April, however, the Fund's U.S. dollar exposure was decreased in favour of increased exposure to the Canadian dollar.

Recent Developments

There were no recent events or activities that had a material impact on the Fund.

Related Party Transactions

CIBC and its affiliates have the following roles and responsibilities with respect to the Fund, and receive the fees described below in connection with their roles and responsibilities.

Manager, Trustee, and Portfolio Advisor of the Fund

CAMI, a wholly-owned subsidiary of CIBC, is the Fund's Manager, Trustee, and Portfolio Advisor. CAMI receives management fees with respect to the Fund's day-to-day business and operations, calculated based on the net asset value of each respective class of units of the Fund as described in *Management Fees*. As Trustee, CAMI holds title to the Fund's property (cash and securities) on behalf of its unitholders. As Portfolio Advisor, CAMI provides, or arranges to provide, investment advice and portfolio management services to the Fund. CAMI also compensates dealers in connection with their marketing activities regarding the Fund. From time to time, CAMI may invest in units of the Fund.

Distributor

Dealers and other firms sell units of the Fund to investors. These dealers and other firms include CAMI's related dealers such as the CIBC Investor's Edge discount brokerage division of CIBC Investor Services Inc. (*CIBC ISI*), the CIBC Imperial Service division of CIBC ISI, and the CIBC Wood Gundy division of CIBC World Markets Inc. (*CIBC WM*). CIBC ISI and CIBC WM are wholly-owned subsidiaries of CIBC.

CAMI may pay sales commissions and trailing commissions to these dealers and firms in connection with the sale of units of the Fund. These dealers and other firms may pay a portion of these sales commissions and trailing commissions to their advisors who sell units of the Fund to investors.

Brokerage Arrangements and Soft Dollars

CAMI generally delegates trading and execution authority to the portfolio sub-advisors and does not, in its capacity as portfolio advisor, receive any goods or services directly through soft dollar arrangements.

The Portfolio Advisor and any portfolio sub-advisors make decisions, including the selection of markets and dealers and the negotiation of commissions, with respect to the purchase and sale of portfolio securities, certain derivative products and the execution of portfolio transactions. Brokerage business may be allocated by the Portfolio Advisor and any portfolio sub-advisor to CIBC WM and CIBC World Markets Corp., each a subsidiary of CIBC. CIBC WM and CIBC World Markets Corp. may also earn spreads on the sale of fixed income securities, other securities, and certain derivative products to the Fund. A spread is the difference between the bid and ask prices for a security in the applicable marketplace, with respect to the execution of portfolio transactions. The spread will differ based upon various factors such as the nature and liquidity of the security.

Dealers, including CIBC WM and CIBC World Markets Corp., may furnish goods and services, other than order execution, to the Portfolio Advisor and any portfolio sub-advisors when they process trades through them (referred to in the industry as "soft-dollar" arrangements). These goods and services are paid for with a portion of the brokerage commissions and assist the Portfolio Advisor and any portfolio sub-advisor with investment decision-making services for the Fund or relate directly to the execution of portfolio transactions on behalf of the Fund. As per the terms of the portfolio sub-advisory agreements, such soft dollar arrangements are in compliance with applicable laws.

In addition, the Manager may enter into commission recapture arrangements with certain dealers with respect to the Fund. Any commission recaptured will be paid to the Fund.

During the period, the Fund did not pay any brokerage commissions or other fees to CIBC WM or CIBC World Markets Corp. Spreads associated with fixed income and other securities are not ascertainable and, for that reason, cannot be included when determining these amounts.

Fund Transactions

The Fund may enter into one or more of the following transactions (the *Related Party Transactions*) in reliance on the standing instructions issued by the Independent Review Committee (*IRC*):

- invest in or hold equity securities of CIBC or issuers related to a portfolio sub-advisor;
- invest in or hold non-exchange-traded debt securities of CIBC or an issuer related to CIBC in a primary offering and in the secondary market;
- make an investment in the securities of an issuer for which CIBC WM, CIBC World Markets Corp., or any affiliate of CIBC (a *Related Dealer*) acts as an underwriter during the offering of the securities at any time during the 60-day period following the completion of the offering of such securities (in the case of a “private placement” offering, in accordance with the exemptive relief order granted by the Canadian securities regulatory authorities and in accordance with the policies and procedures relating to such investment);
- purchase equity or debt securities from or sell them to a Related Dealer, where it is acting as principal;
- undertake currency and currency derivative transactions where a Related Dealer is the counterparty; and
- purchase securities from or sell securities to another investment fund or a managed account managed by the Manager or an affiliate of the Manager.

At least annually, the IRC reviews the Related Party Transactions for which they have issued standing instructions. The IRC is required to advise the Canadian securities regulatory authorities, after a matter has been referred to or reported to it by the Manager, if it determines that an investment decision was not made in accordance with conditions imposed by securities legislation or the IRC in any Related Party Transactions requiring its approval.

Custodian

CIBC Mellon Trust Company is the custodian of the Fund (the *Custodian*). The Custodian holds all cash and securities for the Fund and ensures that those assets are kept separate from any other cash or securities that the custodian might be holding. The Custodian also provides other services to the Fund including record-keeping and processing of foreign exchange transactions. The fees and spreads for services of the Custodian directly related to the execution of portfolio transactions by the Fund are paid by CAMI and/or dealer(s) directed by CAMI, up to the amount of the credits generated under soft dollar arrangements from trading on behalf of the Fund during that month. All other fees and spreads for the services of the Custodian are paid by the Manager and charged to the Fund on a recoverable basis. CIBC owns a 50% interest in the Custodian.

Service Provider

CIBC Mellon Global Securities Services Company (*CIBC GSS*) provides certain services to the Fund, including securities lending, fund accounting and reporting, and portfolio valuation. Such servicing

fees are paid by the Manager and charged to the Fund on a recoverable basis. CIBC indirectly owns a 50% interest in CIBC GSS.

Renaissance Global Bond Fund

Financial Highlights

The following tables show selected key financial information about the Fund and are intended to help you understand the Fund's financial performance for the period ended August 31.

The Fund's Net Assets per Unit¹ - Class A Units

	2018	2017	2016	2015	2014
Net Assets, beginning of period	\$ 5.40	\$ 5.62	\$ 5.45	\$ 5.07	\$ 4.69
Increase (decrease) from operations:					
Total revenue	\$ 0.12	\$ 0.31	\$ 0.16	\$ 0.19	\$ 0.10

Return of capital	—	—	—	—	—
Total Distributions³	\$ 0.38	\$ 0.26	\$ 0.16	\$ 0.05	\$ 0.04
Net Assets, end of period	\$ 4.88	\$ 5.40	\$ 5.62	\$ 5.45	\$ 5.07

¹ This information is derived from the Fund's audited annual financial statements. The Fund adopted IFRS on September 1, 2014. Previously, the Fund prepared its financial statements in accordance with Canadian Generally Accepted Accounting Principles (*GAAP*) as defined in Part V of the CPA Canada Handbook. Under Canadian GAAP, the Fund measured fair values of its investments in accordance with CICA Handbook Section 3855 which required the use of bid prices for long positions and ask prices for short positions. As such, the net assets per unit figure presented in the financial statements may differ from the net asset value calculated for fund pricing purposes. An explanation of these differences can be found in the notes to the financial statements issued prior to September 1, 2014. Upon adoption of IFRS, the Fund measures the fair value of its investments by using the close market prices, where the close market price falls within the bid-ask spread. As such, the Fund's accounting policies for measuring the fair value of investments in the financial statements are consistent with those used in measuring the net asset value for transactions with unitholders. Accordingly, the opening net asset figure as at September 1, 2013 was restated to reflect accounting policy adjustments made in accordance with IFRS.

² Net assets and distributions are based on the actual number of units outstanding at the relevant time. The total increase (decrease) from operations is based on the weighted average number of units outstanding during the period.

³ Distributions were paid in cash, reinvested in additional units of the Fund, or both.

Ratios and Supplemental Data - Class A Units

	2018	2017	2016	2015	2014
Total Net Asset Value (000s)⁴	\$ 90,267	\$ 63,080	\$ 78,931	\$ 37,882	\$ 22,003
Number of Units Outstanding⁴	18,496,468	11,677,387	14,056,167	6,946,679	4,342,586
Management Expense Ratio⁵	1.80%	2.08%	2.06%	2.08%	2.07%
Management Expense Ratio before waivers or absorptions⁶	1.96%	2.27%	2.26%	2.27%	2.30%
Trading Expense Ratio⁷	0.00%	0.00%	0.00%	0.00%	0.00%
Portfolio Turnover Rate⁸	64.42%	64.33%	55.47%	49.58%	117.02%
Net Asset Value per Unit	\$ 4.88	\$ 5.40	\$ 5.62	\$ 5.45	\$ 5.07

⁴ This information is presented as at August 31 of the period(s) shown.

⁵ Management expense ratio is based on the total expenses of the fund (excluding commissions and other portfolio transaction costs), incurred by or allocated to a class of units for the period shown, expressed as an annualized percentage of the daily average net asset value of that class during the period.

⁶ The decision to waive and/or absorb management fees and operating expenses is at the discretion of the Manager. The practice of waiving and/or absorbing management fees and operating expenses may continue indefinitely or may be terminated at any time without notice to unitholders.

⁷ The trading expense ratio represents total commissions and other portfolio transaction costs before income taxes expressed as an annualized percentage of the daily average net asset value during the period. Spreads associated with fixed income securities trading are not ascertainable and, for that reason, are not included in the trading expense ratio calculation.

⁸ The portfolio turnover rate indicates how actively the portfolio advisor and/or portfolio sub-advisor manages the portfolio investments. A portfolio turnover rate of 100% is equivalent to a fund buying and selling all of the securities in its portfolio once in the course of the period. The higher a portfolio turnover rate in a period, the greater the trading costs payable by a fund in the period, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a fund.

^a Information presented is for the period from March 18, 2014 to August 31, 2014.

^b Initial offering price.

¹ This information is derived from the Fund's audited annual financial statements. The Fund adopted IFRS on September 1, 2014. Previously, the Fund prepared its financial statements in accordance with Canadian Generally Accepted Accounting Principles (*GAAP*) as defined in Part V of the CPA Canada Handbook. Under Canadian GAAP, the Fund measured fair values of its investments in accordance with CICA Handbook Section 3855 which required the use of bid prices for long positions and ask prices for short positions. As such, the net assets per unit figure presented in the financial statements may differ from the net asset value calculated for fund pricing purposes. An explanation of these differences can be found in the notes to the financial statements issued prior to September 1, 2014. Upon adoption of IFRS, the Fund measures the fair value of its investments by using the close market prices, where the close market price falls within the bid-ask spread. As such, the Fund's accounting policies for measuring the fair value of investments in the financial statements are consistent with those used in measuring the net asset value for transactions with unitholders. Accordingly, the opening net asset figure as at September 1, 2013 was restated to reflect accounting policy adjustments made in accordance with IFRS.

² Net assets and distributions are based on the actual number of units outstanding at the relevant time. The total increase (decrease) from operations is based on the weighted average number of units outstanding during the period.

³ Distributions were paid in cash, reinvested in additional units of the Fund, or both.

Ratios and Supplemental Data - Class F-Premium Units

	2018	2017	2016	2015	2014 ^a
Total Net Asset Value (000s)⁴	\$ 24,061	\$ 41,141	\$ 38,267	\$ 14,735	\$ 5,744
Number of Units Outstanding⁴	2,453,889	3,792,417	3,390,524	1,364,682	569,486
Management Expense Ratio⁵	0.84%	0.84%	0.84%	0.85%	0.84%*
Management Expense Ratio before waivers or absorptions⁵	0.94%	0.95%	0.95%	0.96%	0.90%*
Trading Expense Ratio⁷	0.00%	0.00%	0.00%	0.00%	0.00%
Portfolio Turnover Rate⁸	64.42%	64.33%	55.47%	49.58%	117.02%
Net Asset Value per Unit	\$ 9.81	\$ 10.85	\$ 11.29	\$ 10.80	\$ 10.09

^a Information presented is for the period from March 18, 2014 to August 31, 2014.

* Ratio has been annualized.

⁴ This information is presented as at August 31 of the period(s) shown.

⁵ Management expense ratio is based on the total expenses of the fund (excluding commissions and other portfolio transaction costs), incurred by or allocated to a class of units for the period shown, expressed as an annualized percentage of the daily average net asset value of that class during the period.

⁶ The decision to waive and/or absorb management fees and operating expenses is at the discretion of the Manager. The practice of waiving and/or absorbing management fees and operating expenses may continue indefinitely or may be terminated at any time without notice to unitholders.

⁷ The trading expense ratio represents total commissions and other portfolio transaction costs before income taxes expressed as an annualized percentage of the daily average net asset value during the period. Spreads associated with fixed income securities trading are not ascertainable and, for that reason, are not included in the trading expense ratio calculation.

⁸ The portfolio turnover rate indicates how actively the portfolio advisor and/or portfolio sub-advisor manages the portfolio investments. A portfolio turnover rate of 100% is equivalent to a fund buying and selling all of the securities in its portfolio once in the course of the period. The higher a portfolio turnover rate in a period, the greater the trading costs payable by a fund in the period, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a fund.

Renaissance Global Bond Fund

The Fund's Net Assets per Unit¹ - Class O Units

	2018	2017	2016	2015	2014

Net Asset Value per Unit	\$ 4.99	\$ 5.52	\$ 5.74	\$ 5.65	\$ 5.29

⁴ This information is presented as at August 31 of the period(s) shown.

⁵ Management expense ratio is based on the total expenses of the fund (excluding commissions and other portfolio transaction costs), incurred by or allocated to a class of units for the period shown, expressed as an annualized percentage of the daily average net asset value of that class during the period.

⁶ The decision to waive and/or absorb management fees and operating expenses is at the discretion of the Manager. The practice of waiving and/or absorbing management fees and operating expenses may continue indefinitely or may be terminated at any time without notice to unitholders.

⁷ The trading expense ratio represents total commissions and other portfolio transaction costs before income taxes expressed as an annualized percentage of the daily average net asset value during the period. Spreads associated with fixed income securities trading are not ascertainable and, for that reason, are not included in the trading expense ratio calculation.

⁸ The portfolio turnover rate indicates how actively the portfolio advisor and/or portfolio sub-advisor manages the portfolio investments. A portfolio turnover rate of 100% is equivalent to a fund buying and selling all of the securities in its portfolio once in the course of the period. The higher a portfolio turnover rate in a period, the greater the trading costs payable by a fund in the period, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a fund.

Management Fees

The Fund pays CAMI an annual management fee to cover the costs of managing the Fund. Management fees are based on the Fund's net asset value and are calculated daily and paid monthly. Management fees are paid to CAMI in consideration for providing, or arranging for the provision of, management, distribution, and portfolio advisory services. Advertising and promotional expenses, office overhead expenses, trailing commissions, and the fees of the portfolio sub-advisor are paid by CAMI out of the management fees received from the Fund. The Fund is required to pay applicable taxes on the management fees paid to CAMI. Refer to the simplified prospectus for the annual management fee rate for each class of units.

For Class O units, the management fee is negotiated with and paid by, or as directed by, unitholders or dealers and discretionary managers on behalf of unitholders. Such Class O management fee will not exceed the Class F unit management fee rate.

The following table shows a breakdown of the services received in consideration of the management fees, as a percentage of the management fees collected from the Fund for the period ended August 31, 2018. These amounts do not include waived fees or absorbed expenses.

	Class A Units	Premium Class Units	Class F Units	Class F-Premium Units
Sales and trailing commissions paid to dealers	97.52%	44.90%	0.00%	0.00%
General administration, investment advice, and profit	2.48%	55.10%	100.00%	100.00%

Past Performance

The performance data provided assumes reinvestment of distributions only and does not take into account sales, redemption, distribution, or other optional charges payable by any unitholder that would have reduced returns. Past performance does not necessarily indicate how a fund will perform in the future.

The Fund's returns are after the deduction of fees and expenses, and the difference in returns between classes of units is primarily due to differences in the management expense ratio. See *Financial Highlights* for the management expense ratio.

Year-by-Year Returns

These bar charts show the annual performance of each class of units of the Fund for each of the periods shown, and illustrate how the performance has changed from period to period. These bar charts show, in percentage terms, how an investment made on September 1 would have increased or decreased by August 31, unless otherwise indicated.

Class A Units

Premium Class Units

^a 2014 return is for the period from June 4, 2014 to August 31, 2014.

Class F Units

Class F-Premium Units

^a 2014 return is for the period from March 18, 2014 to August 31, 2014.

Class O Units

Annual Compound Returns

This table shows the annual compound return of each class of units of the Fund for each indicated period ended on August 31, 2018. The annual compound return is also compared to the Fund's benchmark.

The Fund's benchmark is the Citigroup World Government Bond Index.

	1 Year	3 Years	5 Years	10 Years*	or	Since Inception*	Inception Date
Class A units	-2.8%	1.4%	4.3%	4.6%			October 21, 1992
Citigroup World Government Bond Index	2.2%	1.6%	5.1%	4.3%			
Premium Class units	-2.3%	2.1%				4.0%	June 4, 2014
Citigroup World Government Bond Index	2.2%	1.6%				4.1%	
Class F units	-1.9%	2.3%	5.2%	5.5%			August 22, 2007
Citigroup World Government Bond Index	2.2%	1.6%	5.1%	4.3%			
Class F-Premium units	-1.8%	2.6%				4.5%	March 18, 2014
Citigroup World Government Bond Index	2.2%	1.6%				3.8%	
Class O units	-1.0%	3.4%	6.4%	6.8%			July 13, 2005
Citigroup World Government Bond Index	2.2%	1.6%	5.1%	4.3%			

* If a class of units has been outstanding for less than 10 years, the annual compound return since inception is shown.

Citigroup World Government Bond Index is intended to represent the global government bond market. Currently it consists of fixed interest securities (bonds) issued by governments in various developed countries.

A discussion of the Fund's relative performance compared to its benchmark can be found in *Results of Operations*.

A note on forward-looking statements

The management report of fund performance may contain forward-looking statements. Forward-looking statements include statements that are predictive in nature, that depend upon or refer to future events or conditions, or that include words such as “expects”, “anticipates”, “intends”, “plans”, “believes”, “estimates”, or other similar wording. In addition, any statements that may be made concerning future performance, strategies, or prospects and possible future actions taken by the fund, are also forward-looking statements. Forward-looking statements are not guarantees of future performance. These statements involve known and unknown risks, uncertainties, and other factors that may cause the actual results and achievements of the fund to differ materially from those expressed or implied by such statements. Such factors include, but are not limited to: general economic, market, and business conditions; fluctuations in securities prices, interest rates, and foreign currency exchange rates; changes in government regulations; and catastrophic events.

The above list of important factors that may affect future results is not exhaustive. Before making any investment decisions, we encourage you to consider these and other factors carefully. CIBC Asset Management Inc. does not undertake, and specifically disclaims, any obligation to update or revise any forward-looking statements, whether as a result of new information, future developments, or otherwise prior to the release of the next management report of fund performance.
