### Management Discussion of Fund Performance

#### Investment Objective and Strategies

Investment Objective: Renaissance Global Health Care Fund (the *Fund*) seeks to obtain long-term capital appreciation by investing primarily in U.S. companies and global companies with U.S. operations, or exposure to U.S. markets, or whose securities are traded on a U.S. exchange, which are engaged in the design, development, manufacturing, and distribution of products or services in the health care sectors. The Fund will invest in a diversified portfolio, which will mainly include securities in the medical technology, biotechnology, health care, and pharmaceutical sectors.

Investment Strategies: The Fund focuses on bottom-up stock selection using value management filters within each sub-sector, and seeks to shift assets into those sub-sectors that have better potential performance.

#### Risk

The Fund is a health care equity fund that is suitable for investors who can tolerate medium investment risk.

During the period ended August 31, 2011, the Fund's risk classification was changed from 'above average' to 'medium' to reflect The Investment Funds Institute of Canada's revised risk categories. Although the risk classification changed, the overall level of risk remains as discussed in the Fund's simplified prospectus.

#### Results of Operations

The portfolio sub-advisor of the Fund is Wellington Management Company, LLP (*the sub-advisor*). The commentary that follows reflects the views of the sub-advisor and provides a summary of the results of operations for the period ended August 31, 2011. All dollar figures are expressed in thousands, unless otherwise indicated.

- The Fund's net asset value decreased by 19% during the period, from \$403,994 as at August 31, 2010 to \$326,543 as at August 31, 2011. Net redemptions of \$119,323 were partially offset by positive investment performance, resulting in an overall decrease in net asset value.

- Class A units of the Fund posted a return of 10.6% for the period. The Fund's primary benchmark, the MSCI World Health Care Index (the *benchmark*), returned 10.2% for the same period. The Fund return is after the deduction of fees and expenses, unlike the benchmark. See *Past Performance* for the returns of other classes of units offered by the Fund.
- The health care sector outperformed broader market indices as many modifications have been made to the Patient Protection and Affordable Care Act (PPAC) which have been favourable to the industry, with President Obama's administration adopting a more centrist policy.
- The sub-advisor continues to expect additional dilutions to PPAC and delays in implementation which, along with a stabilization in the decline of commercial health insurance numbers, should be a positive for the sector. These benefits should be somewhat offset by increased pressure on reimbursement rates from Medicare and Medicaid, as the government seeks to reign in spending and reduce the deficit.
- Health care services was the top performing industry, as health management organizations (HMOs) continued to outperform. Overall, companies have benefited from less negative sentiment and a more positive fundamental outlook, and the sub-advisor continues to view the sector as attractive in terms of valuation relative to the rest of the industry.
- Biotechnology and pharmaceutical stocks lagged during the period due to upcoming patent expirations in 2011 and 2012, while the earthquake in Japan caused some firms to halt production and others to reduce long term guidance. More recently, there have been positive developments in the drug companies' pipelines.
- The U.S. Supreme Court likely will rule on the constitutionality of health care reform legislation in 2012 and, while uncertainty will remain over the final design of the legislation, the sub-advisor expects the Obama administration to continue to enact the legislation with modifications in the industry's favour.
- The sub-advisor believes that there is an attractive opportunity for long-term investors willing to look through the ambiguity, understand

new industry dynamics, differentiate short-term “noise” from long-term secular changes, and invest accordingly.

- The Fund remains fairly balanced across health care services, medical technology, biotechnology, and pharmaceuticals. Within health care services, the sub-advisor believes that HMOs offer the greatest upside. In addition to benefiting from clarity on reform, the sub-advisor believes commercial underwriting cycle has bottomed, setting 2011 up to be a strong year fundamentally. Within medical technology, the sub-advisor continues to look for companies with underappreciated franchises and research and development projects. Potential catalysts for a rebound in pharmaceutical and biotechnology names include cost cutting measures, growth in emerging markets, robust product pipelines, and an improving FDA (Food and Drug Administration) posture.

### Recent Developments

#### *International Financial Reporting Standards (IFRS)*

In January 2011, the Accounting Standards Board (AcSB) amended the Introduction to Part I of the CICA Handbook – Accounting to allow investment companies, which include investment funds, to adopt IFRS for the first time no later than interim and annual financial statements relating to annual periods beginning on or after January 1, 2013. Investment companies electing to defer the first time adoption may continue to apply existing Canadian generally accepted accounting principles (GAAP) until the changeover to IFRS.

The Fund will defer the first time adoption and adopt IFRS beginning September 1, 2013. As at August 31, 2011, the Manager has developed a changeover plan to meet this timetable.

### Related Party Transactions

Canadian Imperial Bank of Commerce (CIBC) and its affiliates have the following roles and responsibilities with respect to the Fund, and receive the fees described below in connection with their roles and responsibilities.

#### *Manager, Trustee, and Portfolio Advisor of the Fund*

CIBC Asset Management Inc., a wholly-owned subsidiary of CIBC, is the manager, trustee, and portfolio advisor of the Fund (CAMI or the *Manager*). CAMI will receive management fees with respect to the day-to-day business and operations of the Fund, calculated based on the net asset value of each respective class of units of the Fund, as described in the section entitled *Management Fees*. As portfolio advisor, CAMI provides, or arranges to provide, investment advice and portfolio management services to the Fund. CAMI will also compensate its wholesalers in connection with their marketing activities regarding the Fund. From time to time, CAMI may provide seed capital to the Fund.

#### *Distributor*

Dealers and other firms will sell the units of the Fund to investors. These dealers and other firms will include CIBC’s related dealers such as the CIBC Investor’s Edge discount brokerage division of CIBC Investor Services Inc. (CIBC ISI), the CIBC Imperial Service division of CIBC ISI, and the CIBC Wood Gundy division of CIBC World Markets Inc. (CIBC WM). CIBC ISI and CIBC WM are wholly-owned subsidiaries of CIBC.

CAMI may pay sales commissions and trailing commissions to these dealers and firms in connection with the sale of units of the Fund. These dealers and other firms may pay a portion of these sales commissions and trailing commissions to their advisors who sell units of the Fund to investors.

#### *Brokerage Arrangements and Soft Dollars*

Portfolio sub-advisors make decisions, including the selection of markets and dealers and the negotiation of commissions, with respect to the purchase and sale of portfolio securities, certain derivative products (including futures) and the execution of portfolio transactions. Brokerage business may be allocated by portfolio sub-advisors to CIBC WM and CIBC World Markets Corp., each a subsidiary of CIBC. CIBC WM and CIBC World Markets Corp. may also earn spreads on the sale of fixed income, other securities and certain derivative products (including forwards) to the Fund. A spread is the difference between the bid and ask prices for a security in the applicable marketplace, with respect to the execution of portfolio transactions. The spread will differ based upon various factors such as the nature and liquidity of the security.

Dealers, including CIBC WM and CIBC World Markets Corp., may also furnish goods and services, other than order execution, to portfolio sub-advisors that process trades through them (referred to in the industry as “soft-dollar” arrangements). These goods and services are paid for with a portion of brokerage commissions and assist portfolio sub-advisors with investment decision making services to the Fund or relate directly to executing portfolio transactions on behalf of the Fund. As per the terms of the portfolio sub-advisory agreements, such soft dollar arrangements are in compliance with applicable laws. In addition, CAMI may enter into commission recapture arrangements with certain dealers with respect to the Fund. Any commission recaptured will be paid to the Fund.

During the period, the Fund did not pay any brokerage commissions or other fees to CIBC WM or CIBC World Markets Corp. Spreads associated with fixed income and other securities are not ascertainable and, for that reason, cannot be included when determining these amounts.

#### *Fund Transactions*

The Fund may enter into one or more of the following transactions in reliance on the standing instructions rendered by the Independent Review Committee (IRC):

- trade in securities of CIBC;
- invest in the securities of issuers for which CIBC WM, CIBC World Markets Corp. or another related party acts as an underwriter during the distribution of such securities and the 60-day period following the conclusion of such distribution of the underwritten securities to the public;
- purchase of securities from or sell securities to CIBC WM, CIBC World Markets or another related party, where it is acting as principal; and

- purchases or sales of securities of an issuer from or to another investment fund managed by the Manager or an affiliate of the Manager.

The relevant standing instructions require that the transactions (i) be made free from any influence of an entity related to the Manager or any sub-advisor and without taking into account any consideration relevant to an entity related to the Manager or any sub-advisor, (ii) represent the business judgment of the Manager and such sub-advisor, uninfluenced by considerations other than the best interests of the Fund, (iii) be conducted in accordance with the Manager's policies and procedures, and (iv) achieve a fair and reasonable result for the Fund. The Manager is required to report a material breach in respect of the standing instructions to the IRC.

*Custodian*

The custodian holds all cash and securities for the Fund and ensures that those assets are kept separate from any other cash or securities that the custodian may be holding. CIBC Mellon Trust Company is the custodian of the Fund (the *Custodian*). The fees for the services of the Custodian are paid by the Manager and charged to the Fund on a recoverable basis.

*Service Provider*

CIBC Mellon Global Securities Services Company (*CIBC GSS*) provides certain services to the Fund, including securities lending, fund accounting and reporting, and portfolio valuation. Such servicing fees are paid by the Manager, and charged to the Fund on a recoverable basis. CIBC indirectly owns a 50% interest in CIBC GSS.

## Financial Highlights

The following tables show selected key financial information about the Fund and are intended to help you understand the Fund's financial performance for the periods ended August 31.

<b>Net Asset Value per Unit</b>	\$16.16	\$14.62	\$15.34	\$16.77	\$17.35

<sup>4</sup> This information is presented as at August 31 of the period(s) shown.

<sup>5</sup> Management expense ratio is based on the total expenses of the fund (excluding commissions and other portfolio transaction costs), incurred by or allocated to a class of units for the period shown, expressed as an annualized percentage of the daily average net asset value of that class during the period.

<sup>6</sup> The decision to waive and/or absorb management fees and operating expenses is at the discretion of the Manager. The practice of waiving and/or absorbing management fees and operating expenses may continue indefinitely or may be terminated at any time without notice to unitholders.

<sup>7</sup> The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of the daily average net asset value during the period. Spreads associated with fixed income securities trading are not ascertainable and, for that reason, are not included in the trading expense ratio calculation.

<sup>8</sup> The portfolio turnover rate indicates how actively the portfolio sub-advisor manages the portfolio investments. A portfolio turnover rate of 100% is equivalent to a fund buying and selling all of the securities in its portfolio once in the course of the period. The higher a portfolio turnover rate in a period, the greater the trading costs payable by a fund in the period, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a fund.

## Management Fees

The Fund, either directly or indirectly, pays one or more annual management fees to CAMI in consideration for the provision of, or arranging for the provision of, management, distribution, and portfolio advisory services. These fees are calculated as a percentage of the Fund's class level net asset value and are calculated and credited daily, and paid monthly. The Fund is required to pay all applicable taxes on the management fees.

The following table shows a breakdown of the services received in consideration of the management fees, as a percentage of the management fees collected from the Fund for the period ended August 31, 2011. These amounts do not include waived fees or absorbed expenses. CAMI charges a management fee directly to, or as directly by, Class O unitholders, or dealers and discretionary managers on behalf of Class O unitholders.

	Class A Units	Class F Units
Sales and trailing commissions paid to dealers	26.74%	0.00%
General administration, investment advice, and profit	73.26%	100.00%

## Past Performance

The performance data provided assumes reinvestment of distributions only and does not take into account sales, redemption, distribution, or other optional charges payable by any unitholder that would have reduced returns. Past performance does not necessarily indicate how a fund will perform in the future.

The Fund's returns are after the deduction of fees and expenses, and the difference in returns between classes is primarily due to the difference in management expense ratio. See the section entitled *Financial Highlights* for the management expense ratio.

## Year-by-Year Returns

These bar charts show the annual performance of each class of units of the Fund for each of the periods shown, and illustrates how the performance has changed from period to period. These bar charts show, in percentage terms, how an investment made on September 1 would have increased or decreased by August 31, unless otherwise indicated.

### Class A Units

<sup>a</sup>Return is for the period from January 1 to December 31 of the year shown.

<sup>b</sup>2006 return is for the period from January 1, 2006 to August 31, 2006.

Class F Units

<sup>a</sup>Return is for the period from January 1 to December 31 of the year shown.

<sup>b</sup>2006 return is for the period from January 1, 2006 to August 31, 2006.

Class O Units

<sup>a</sup>Return is for the period from January 1 to December 31 of the year shown.

<sup>b</sup>2006 return is for the period from January 1, 2006 to August 31, 2006.

**Annual Compound Returns**

This table shows the annual compound return of each class of units of the Fund for each indicated period ended on August 31, 2011. The annual compound total return is also compared to the Fund's benchmark(s).

	1 Year	3 Years	5 Years	Since 10 Years* or Inception*
Class A units	10.6%	-1.2%	-1.0%	0.7%
MSCI World Health Care Index	10.2%	0.3%	-0.5%	-1.2%

This document may contain forward-looking statements. Forward-looking statements include statements that are predictive in nature, that depend upon or refer to future events or conditions, or that include words such as “expects”, “anticipates”, “intends”, “plans”, “believes”, “estimates”, or other similar wording. In addition, any statements that may be made concerning future performance, strategies, or prospects and possible future actions taken by the fund, are also forward-looking statements. These statements involve known and unknown risks, uncertainties, and other factors that may cause the actual results and achievements of the fund to differ materially from those expressed or implied by such statements. Such factors include, but are not limited to: general economic, market, and business conditions; fluctuations in securities prices, interest rates, and foreign currency exchange rates; changes in government regulations; and catastrophic events. We do not undertake, and specifically disclaim, any obligation to update or revise any forward-looking statements, whether as a result of new information, future developments, or otherwise prior to the release of the next management report of fund performance.
