

## Annual Management Report of Fund Performance

for the financial year ended August 31, 2024

All figures are reported in Canadian dollars unless otherwise noted.

This annual management report of fund performance contains financial highlights but does not contain the complete annual financial statements of the investment fund. You can get a copy of the annual financial statements at your request, and at no cost, by calling toll-free at [1-888-888-3863](tel:1-888-888-3863), by emailing us at [info@cibcassetmanagement.com](mailto:info@cibcassetmanagement.com), by writing to us at 1000, rue De La Gauchetière Ouest, bureau 3200, Montréal, (Québec), H3B 4W5, or by visiting our website at [www.renaissanceinvestments.ca](http://www.renaissanceinvestments.ca) or SEDAR+ at [www.sedarplus.ca](http://www.sedarplus.ca).

Unitholders may also contact us using one of these methods to request a copy of the investment fund's interim financial report, proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure.

### Management Discussion of Fund Performance

#### Investment Objective and Strategies

Investment Objective: Renaissance Global Infrastructure Currency Neutral Fund (the *Fund*) seeks long-term capital growth primarily through exposure to a global equity fund that invests primarily in securities of companies located throughout the world that are involved in, or that indirectly benefit from, the development, maintenance, servicing, and management of infrastructures (*Underlying Fund*). The Fund will attempt to reduce its currency exposure to non-Canadian dollar currencies by implementing a currency hedging strategy.

Investment Strategies: The Fund invests primarily in units of Renaissance Global Infrastructure Fund and will attempt to reduce its currency exposure to non-Canadian dollar currencies by implementing a currency hedging strategy that is aimed at protecting the Fund from non-Canadian dollar currency fluctuations in respect of units it owns in the Underlying Fund. The Fund may not be able to hedge its currencies exposure fully and therefore could be subject to some foreign currencies exposure.

#### Risk

The Fund is a global infrastructure equity fund that is suitable for long term investors who can tolerate medium investment risk.

For the period ended August 31, 2024, the Fund's overall level of risk remained as discussed in the simplified prospectus.

#### Results of Operations

The Fund's portfolio advisor is CIBC Asset Management Inc. (*CAMI*, the *Manager*, or *Portfolio Advisor*). The Fund primarily invests in units of Renaissance Global Infrastructure Fund (the *Underlying Fund*).

The Underlying Fund's portfolio sub-advisor is Maple-Brown Abbott Ltd. (the *Sub-Advisor*). The commentary that follows provides a summary of the results of operations for the period ended August 31, 2024. All dollar figures are expressed in thousands, unless otherwise indicated.

The Fund's net asset value increased by 2% during the period, from \$117,213 as at August 31, 2023 to \$119,830 as at August 31, 2024. Positive investment performance was partially offset by net redemptions of \$14,793, resulting in an overall increase in net asset value.

Class A units of the Fund posted a return of 13.7% for the period. The Fund's benchmark, the S&P Global Infrastructure Index (local currency) (the *benchmark*), returned 18.9% for the same period. The Fund's return is after the deduction of fees and expenses, unlike the benchmark's return. See the section *Past Performance* for the returns of other classes of units offered by the Fund.

Several key factors shaped the global and regional economic landscape over the period. In the U.S., inflation showed signs of moderating but remained above the U.S. Federal Reserve Board's 2% target. In many advanced economies, the labour market remained tight, with low unemployment rates and wage growth outpacing inflation in some sectors. Slowing economic growth, both in the U.S. and globally, led to a decline in the 10-year U.S. Treasury yield, which peaked at 4.99% before ending the period at 3.90%. Slowing economic growth also led the European Central Bank and Bank of England to lower interest rates.

Global equities outperformed infrastructure equities. There was a significant increase in investment in artificial intelligence and the information technology sector. This led to a tech stock rebound, particularly in the U.S., despite broader market concerns about economic growth.

Concessions, which are typically transportation infrastructure assets, performed strongly. For toll roads in particular, traffic volumes rebounded to pre-pandemic levels, and in some cases, well above. Commuter traffic has been slower to recover due to the persistence of remote work in many regions, but commercial traffic, especially freight, remained strong, driven by robust e-commerce activity.

The Underlying Fund's underweight exposure to midstream infrastructure detracted from performance. Midstream companies with exposure to declining global liquified natural gas prices underperformed, while some companies with exposure to increasing volumes in the U.S. outperformed. Several of these companies do not meet the Underlying Fund's definition of infrastructure due to having direct commodity price exposure.

Exposure to European towers also detracted from performance. Unlike their U.S. counterparts, European tower companies continued to lag in an environment of high interest rates despite having direct inflation

pass-throughs. From a regional perspective, the Underlying Fund's overweight exposure to Europe detracted from performance.

Individual detractors from the Underlying Fund's performance included Cellnex Telecom SA and an overweight holding in EDP - Energias de Portugal SA. Cellnex Telecom, a perceived bond proxy, performed poorly as both long- and short-term interest rates increased. EDP underperformed as the onset of El Nino conditions drove weaker wind resources in the U.S. Lower power prices in Europe reduced expectations for future earnings.

The Underlying Fund's overweight exposures to European toll roads and energy storage contributed to performance. From a country perspective, the Underlying Fund's overweight exposure to the Netherlands contributed to performance.

Individual contributors to performance included Ferrovial SE and overweight holdings in Koninklijke Vopak NV and American Electric Power Co. Inc. Ferrovial performed well amid a strong traffic recovery and continued toll increases. Koninklijke Vopak's stock performed strongly following positive results that confirmed an updated capital management plan and the commencement of share buybacks. American Electric Power outperformed after news of activist investor Icahn Capital L.P.'s new ownership position.

A new holding in CenterPoint Energy Inc. was added to the Underlying Fund for its industry-leading rate base growth and ability to maintain affordability. Elia Group SA was added to the Underlying Fund after it accelerated its growth forecast for the next five years, making it one of the fastest-growing regulated utilities globally.

Existing holdings in Aena SME SA, NiSource Inc. and Infrastrutture Wireless Italiane SPA were increased after share price underperformance. Severn Trent PLC was also increased through participation in an equity raising at an attractive price.

Aleatica SAB de CV was eliminated after the company accepted a tender offer. The holding was exited at a 118% premium to the pre-bid price. Orsted AS was eliminated from the Underlying Fund because of a weakening of the company's balance sheet amid ongoing challenges in the U.S. offshore wind supply chain. Several holdings were trimmed after strong stock performance, including Ferrovial, Getlink SE, Koninklijke Vopak and American Electric Power.

#### **Recent Developments**

The level of geopolitical risk disrupted the global economy and financial markets in unprecedented and unpredictable ways. This has resulted in significant volatility and uncertainty in financial markets. It is unclear what further actions may be taken by governments and the resulting impact on global economies, businesses and financial markets. These factors may adversely affect the Fund's performance. The Manager continues to monitor ongoing developments and the impact to investment strategies.

#### **Related Party Transactions**

Canadian Imperial Bank of Commerce (CIBC) and its affiliates have the following roles and responsibilities with respect to the Fund, and receive the fees described below in connection with their roles and responsibilities.

#### *Manager, Trustee, and Portfolio Advisor of the Fund*

CAMI, a wholly-owned subsidiary of CIBC, is the Fund's Manager, Trustee, and Portfolio Advisor. As Manager, CAMI receives management fees with respect to the Fund's day-to-day business and operations, calculated based on the net asset value of each respective class of units of the Fund as described in *Management Fees*.

As Trustee, CAMI holds title to the Fund's property (cash and securities) on behalf of its unitholders. As Portfolio Advisor, CAMI provides, or arranges to provide investment advice and portfolio management services to the Fund. CAMI also compensates dealers in connection with their marketing activities regarding the Fund. From time to time, CAMI may invest in units of the Fund.

#### *Distributor*

Dealers and other firms sell units of the Fund to investors. These dealers and other firms include CAMI's related dealers such as the CIBC Securities Inc. (CIBC SI), the CIBC Investor's Edge discount brokerage division of CIBC Investor Services Inc. (CIBC ISI), the CIBC Imperial Service division of CIBC ISI, and the CIBC Wood Gundy division of CIBC World Markets Inc. (CIBC WM). CIBC SI, CIBC ISI and CIBC WM are wholly-owned subsidiaries of CIBC.

CAMI may pay sales commissions and trailing commissions to these dealers and firms in connection with the sale of units of the Fund. These dealers and other firms may pay a portion of these sales commissions and trailing commissions to their advisors who sell units of the Fund to investors.

#### *Brokerage Arrangements and Soft Dollars*

The Portfolio Advisor or any portfolio sub-advisors make decisions, including the selection of markets and dealers and the negotiation of commissions, with respect to the purchase and sale of portfolio securities, certain derivative products and the execution of portfolio transactions. Brokerage business may be allocated by the Portfolio Advisor or any portfolio sub-advisor(s) to CIBC WM and CIBC World Markets Corp., each a subsidiary of CIBC. CIBC WM and CIBC World Markets Corp. may also earn spreads on the sale of fixed income securities, other securities, and certain derivative products to the Fund. A spread is the difference between the bid and ask prices for a security in the applicable marketplace, with respect to the execution of portfolio transactions. The spread will differ based upon various factors such as the nature and liquidity of the security.

Dealers, including CIBC WM and CIBC World Markets Corp., may furnish goods and services, other than order execution, to the Portfolio Advisor or any portfolio sub-advisor(s) when they process trades through them. These types of goods and services for which the Portfolio Advisor or a portfolio sub-advisor may direct brokerage commissions are research goods and services and order execution goods and services, and are referred to in the industry as "soft-dollar" arrangements. These goods and services received through soft dollar arrangements assist the Portfolio Advisor or any portfolio sub-advisor(s) with investment decision-making services for the Fund, or relate directly to the execution of portfolio transactions on behalf of the Fund. As per the terms of the portfolio advisory agreement and portfolio sub-advisory agreements, such soft dollar arrangements are in compliance with applicable laws.

During the period, the Fund did not pay any brokerage commissions or other fees to CIBC WM or CIBC World Markets Corp. Spreads associated with fixed income and other securities are not ascertainable and, for that reason, cannot be included when determining these amounts.

#### *Fund Transactions*

The Fund may enter into one or more of the following transactions (the *Related Party Transactions*) in reliance on the standing instructions issued by the Independent Review Committee (the *IRC*):

- invest in or hold equity securities of CIBC or issuers related to a portfolio sub-advisor;
- invest in or hold non-exchange-traded debt securities of CIBC or an issuer related to CIBC, with terms-to-maturity of 365 days or more, issued in a primary offering and in the secondary market;
- make an investment in the securities of an issuer for which CIBC WM, CIBC World Markets Corp., or any affiliate of CIBC (a *Related Dealer* or the *Related Dealers*) acts as an underwriter during the offering of the securities or at any time during the 60-day period following the completion of the offering of such securities (in the case of a "private placement" offering, in accordance with the Private Placement Relief Order and the policies and procedures relating to such investment);
- purchase equity or debt securities from, or sell them to, a Related Dealer, where it is acting as principal;
- undertake currency and currency derivative transactions where a related party is the counterparty;
- purchase securities from or sell securities to another investment fund or a managed account managed by the Manager or an affiliate (*inter-fund trades* or *cross-trades*); and
- engage in in-specie transfers by receiving portfolio securities from, or delivering portfolio securities to, a managed account or another investment fund managed by the Manager or an affiliate, in respect of a purchase or redemption of units of the Fund, subject to certain conditions.

At least annually, the IRC reviews the Related Party Transactions for which they have issued standing instructions. The IRC is required to advise the Canadian securities regulatory authorities, after a matter has been referred to or reported to it by the Manager, if it determines that an investment decision was not made in accordance with conditions imposed by securities legislation or the IRC in any Related Party Transactions requiring its approval.

#### *Custodian*

CIBC Mellon Trust Company is the custodian of the Fund (the *Custodian*). The Custodian holds cash and securities for the Fund and ensures that those assets are kept separate from any other cash or securities that the Custodian might be holding. The Custodian also provides other services to the Fund including record-keeping and processing of foreign exchange transactions. The fees and spreads for the services of the Custodian are paid by the Manager. CIBC owns a 50% interest in the Custodian.

#### *Service Provider*

CIBC Mellon Global Securities Services Company Inc. (*CIBC GSS*) provides certain services to the Fund, including securities lending, fund accounting and reporting, and portfolio valuation. Such servicing fees are paid by the Manager. CIBC indirectly owns a 50% interest in CIBC GSS.

*Renaissance Global Infrastructure Currency Neutral Fund*

<sup>1</sup> This information is derived from the Fund's audited annual financial statements.

<sup>2</sup> Net assets and distributions are based on the actual number of units outstanding at the relevant time. The total increase (decrease) from operations is based on the weighted average number of units outstanding during the period.

<sup>3</sup> Distributions were paid in cash, reinvested in additional units of the Fund, or both.

<sup>4</sup> This information is presented as at August 31 of the period(s) shown.

<sup>5</sup> Management expense ratio is based on the total expenses of the fund (excluding commissions and other portfolio transaction costs), incurred by or allocated to a class of units for the period shown, expressed as an annualized percentage of the daily average net asset value of that class during the period. The management expense ratio includes the fees attributable to exchange traded funds.

<sup>6</sup> The decision to waive management fees and/or fixed administration fees is at the discretion of the Manager. The practice of waiving management fees and/or fixed administration fees may continue indefinitely or may be terminated at any time without notice to unitholders. The management expense ratio before waivers or absorptions includes the fees attributable to exchange traded funds, where applicable.

<sup>7</sup> The trading expense ratio represents total commissions and other portfolio transaction costs before income taxes expressed as an annualized percentage of the daily average net asset value during the period. Spreads associated with fixed income securities trading are not ascertainable and, for that reason, are not included in the trading expense ratio calculation. Previously, the trading expense ratio included the fees attributable to exchange traded funds which are now no longer included in the TER. Prior year fees attributable to exchange traded funds have been reclassified to the management expense ratio and management expense ratio before waivers or absorptions.

<sup>8</sup> The portfolio turnover rate indicates how actively the portfolio advisor and/or portfolio sub-advisor manages the portfolio investments. A portfolio turnover rate of 100% is equivalent to a fund buying and selling all of the securities in its portfolio once in the course of the period. The higher a portfolio turnover rate in a period, the greater the trading costs payable by a fund in the period, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a fund.

**Management Fees**

The Fund pays CAMI an annual management fee to cover the costs of managing the Fund. Management fees are based on the Fund's net asset value and are calculated daily and paid monthly. Management fees are paid to CAMI in consideration for providing, or arranging for the provision of, management, distribution, and portfolio advisory services. Advertising and promotional expenses, office overhead expenses related to the Manager's activities, and trailing commissions are paid by CAMI out of the management fees received from the Fund. The Fund is required to pay applicable taxes on the management fees paid to CAMI. Refer to the simplified prospectus for the annual management fee rate for each class of units.

For Class O units, the management fee is negotiated with and paid by, or as directed by, unitholders or dealers and discretionary managers on behalf of unitholders. Such Class O management fee will not exceed the Class F unit management fee rate.

The following table shows a breakdown of the services received in consideration of the management fees, as a percentage of the management fees collected from the Fund for the period ended August 31, 2024. These amounts do not include waived fees or absorbed expenses.

	Class A Units	Class F Units
Sales and trailing commissions paid to dealers	38.96%	0.00%
General administration, investment advice, and profit	61.04%	100.00%

## Past Performance

The performance data provided assumes reinvestment of distributions only and does not take into account sales, redemption, distribution, or other optional charges payable by any unitholder that would have reduced returns. Past performance does not necessarily indicate how a fund will perform in the future.

The Fund's returns are after the deduction of fees and expenses, and the difference in returns between classes of units is primarily due to differences in the management expense ratio. See *Financial Highlights* section for the management expense ratio.

### Year-by-Year Returns

These bar charts show the annual performance of each class of units of the Fund for each of the periods shown, and illustrate how the performance has changed from period to period. These bar charts show, in percentage terms, how an investment made on September 1 would have increased or decreased by August 31, unless otherwise indicated.

### Annual Compound Returns

This table shows the annual compound return of each class of units of the Fund for each indicated period ended on August 31, 2024. The annual compound return is compared to the Fund's benchmark(s).

The Fund's benchmark is the S&P Global Infrastructure Index (local currency).

Class and Benchmark(s)	1 Year (%)	3 Years (%)	5 Years (%)	10 Years* (%)	or Since Inception* (%)	Inception Date
Class A units	13.7	5.8	4.8	4.0		
S&P Global Infrastructure Index (local currency)	18.9	9.3	6.6	6.7		October 20, 2010
Class F units	15.1	7.1	6.1	5.3		
S&P Global Infrastructure Index (local currency)	18.9	9.3	6.6	6.7		November 12, 2010
Class O units	16.6	8.5	7.5	6.7		
S&P Global Infrastructure Index (local currency)	18.9	9.3	6.6	6.7		November 9, 2010

\* If a class of units has been outstanding for less than 10 years, the annual compound return since inception is shown.

**S&P Global Infrastructure Index (local currency)** is comprised of listed infrastructure companies that meet specific investability requirements. The Index is designed to provide liquid exposure to the leading publicly listed companies in the global infrastructure industry, from both developed markets and emerging markets. Local currency represents the theoretical performance of an index without any impact from foreign exchange fluctuations.

A discussion of the Fund's relative performance compared to its benchmark(s) can be found in *Results of Operations*.

**Summary of Investment Portfolio** (as at August 31, 2024)

This Fund invests primarily in units of its Underlying Fund. You can find the prospectus and additional information about the Underlying Fund by visiting [www.sedarplus.ca](http://www.sedarplus.ca).

The summary of investment portfolio may change due to ongoing portfolio transactions of the investment fund. A quarterly update is available by visiting [www.renaissanceinvestments.ca](http://www.renaissanceinvestments.ca). The Fund invests primarily in units of Renaissance Global Infrastructure Fund and attempts to reduce its currency exposure to non-Canadian dollar currencies by implementing a currency hedging strategy. The information below shows the Portfolio Breakdown of the Fund and the Top Positions of Renaissance Global Infrastructure Fund. For funds with fewer than 25 positions in total, all positions are shown.

**A note on forward-looking statements**

The management report of fund performance may contain forward-looking statements. Forward-looking statements include statements that are predictive in nature, that depend upon or refer to future events or conditions, or that include words such as "expects", "anticipates", "intends", "plans", "believes", "estimates", or other similar wording. In addition, any statements that may be made concerning future performance, strategies, or prospects and possible future actions taken by the fund, are also forward-looking statements. Forward-looking statements are not guarantees of future performance. These statements involve known and unknown risks, uncertainties, and other factors that may cause the actual results and achievements of the fund to differ materially from those expressed or implied by such statements. Such factors include, but are not limited to: general economic, market, and business conditions; fluctuations in securities prices, interest rates, and foreign currency exchange rates; changes in government regulations; and catastrophic events.

The above list of important factors that may affect future results is not exhaustive. Before making any investment decisions, we encourage you to consider these and other factors carefully. CIBC Asset Management Inc. does not undertake, and specifically disclaims, any obligation to update or revise any forward-looking statements, whether as a result of new information, future developments, or otherwise prior to the release of the next management report of fund performance.
