

Interim Management Report of Fund Performance

for the period ended February 28, 2025

All figures are reported in Canadian dollars unless otherwise noted.

This interim management report of fund performance contains financial highlights but does not contain either the interim financial report or annual financial statements of the investment fund. You can get a copy of the interim financial report or annual financial statements at your request, and at no cost, by calling toll-free at 1-888-888-3863, by emailing us at info@cibcassetmanagement.com, by writing to us at 1000, rue De La Gauchetière Ouest, bureau 3200, Montréal, (Québec), H3B 4W5, or by visiting our website at www.renaissanceinvestments.ca or SEDAR+ at www.sedarplus.ca.

Unitholders may also contact us using one of these methods to request a copy of the investment fund's proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure.

Management Discussion of Fund Performance

Results of Operations

Renaissance China Plus Fund's (the *Fund*) portfolio sub-advisor is Amundi Canada Inc. (the *Sub-Advisor*). The commentary that follows provides a summary of the results of operations for the six-month period ended February 28, 2025. All dollar figures are expressed in thousands, unless otherwise indicated.

The Fund's net asset value increased by 13% during the period, from \$22,971 as at August 31, 2024 to \$26,013 as at February 28, 2025. Positive investment performance was partially offset by net redemptions of \$1,616, resulting in an overall increase in net asset value.

Class A units of the Fund posted a return of 20.8% for the period. The Fund's benchmark, the MSCI AC Golden Dragon Index (the *benchmark*), returned 25.5% for the same period. The Fund's return is after the deduction of fees and expenses, unlike the benchmark's return. See the section *Past Performance* for the returns of other classes of units offered by the Fund.

Chinese authorities embarked on a policy pivot in late September 2024. New measures included a reduction in its benchmark interest rate, the facilitation of increased lending facilities for equity purchases and corporate buybacks, as well as relaxation of home purchase restrictions in Tier 1 cities.

Taiwan enjoyed strong equity performance to close out 2024. Its information technology sector benefited from NVIDIA Corp.'s positive third-quarter results release, implying continued strength for Taiwanese data centres and server manufacturers.

In January 2025, privately held Chinese company DeepSeek released its homegrown artificial intelligence chatbot, which was produced at a far lower cost than its Western peers. The chatbot also boasted commensurate performance relative to peers.

In the first quarter of 2025, the new U.S. administration imposed two separate 10% import tariff increments on Chinese imports.

An underweight allocation to state-owned financials detracted from the Fund's performance after a sharp decline in Chinese government bond yields toward the end of 2024. This decline drove a significant rotation toward higher-yielding equities boasting more defensive qualities. An

overweight exposure to Chinese consumer discretionary sector stocks detracted from performance amid slower-than-expected consumer retail sales.

The largest individual detractors from the Fund's performance included holdings in PDD Holdings Inc. and AIA Group Ltd. PDD Holdings Inc. announced that it would try to increase returns to sellers on its third-party sales platform, potentially impact the company's earnings profile. AIA Group Ltd.'s improved net book value and growth trends was not properly recognized by most investors, in the Sub-Advisor's view. An underweight holding in Taiwan Semiconductor Manufacturing Co. Ltd. (TSMC) also detracted from performance due to the Fund's maximum 10% allocation limit. TSMC's stock outperformed during the period.

Stock selection within Taiwan's information technology hardware supply chain was a significant contributor to the Fund's performance. Exposure to China's travel sector also contributed to performance, with outbound travel and accommodation a key beneficiary of Chinese consumer spending. Underweight exposure to Chinese electric vehicle companies was another contributor to performance amid increased competition and narrowing margins.

Top individual contributors to the Fund's performance included holdings in Trip.com Group Ltd. and Full Truck Alliance Co. Ltd. Trip.com Group Ltd. performed well in light of increased Chinese retail spending. Full Truck Alliance Co. Ltd. benefited from a sharp increase in Chinese 2024 exports. An underweight exposure to Baidu Inc. was another notable contributor to the Fund's performance amid the company's market share losses.

During the period, the Sub-Advisor added to the Fund new holdings in Xiaomi Corp., Largan Precision Co. Ltd. and Chinasoft International Ltd. Xiaomi recently complemented its existing dominant position within the Chinese mobile supply handset supply chain with a successful venture into electric vehicles. Chinasoft also benefited from its strong positioning in terms of supplying software systems for domestic mobile handset manufacturers.

Existing holdings in Alchip Technologies Ltd., Industrial and Commercial Bank of China (ICBC) and Zhongji Innolight Co. Ltd. were increased. While Alchip Technologies and Zhongji Innolight are key players in the

tech hardware supply chain, our increased allocation to ICBC came as we sought to narrow our underweight to the Chinese banking sector.

Holdings in Parade Technologies Ltd., Hong Kong Exchanges & Clearing Ltd. and China Resources Mixc Lifestyle Services Ltd. were eliminated from the Fund, while holdings in TSMC, AIA Group Ltd. and Accton Technology Corp. were trimmed. While TSMC was reduced due to regulatory limit constraints, we sought to take profit on companies such as Hong Kong Exchanges, China Resources and Parade Technologies.

Recent Developments

The level of geopolitical risk disrupted the global economy and financial markets in unprecedented and unpredictable ways. Threatened and actual impositions of tariffs and other trade-related actions by the U.S., China and other global actors, and any counter-tariff and non-tariff retaliatory measures by Canada, Europe and others, may have further negative impacts on the Canadian and global economy, and on financial markets. These events could exacerbate other preexisting political, social and economic risks and cause substantial market volatility and uncertainty in financial markets. It is unclear what further actions may be taken by governments and the resulting impact on global economies, businesses and financial markets. These factors may adversely affect the Fund's performance. The Manager continues to monitor ongoing developments and the impact to investment strategies.

Related Party Transactions

Canadian Imperial Bank of Commerce (CIBC) and its affiliates have the following roles and responsibilities with respect to the Fund, and receive the fees described below in connection with their roles and responsibilities.

Manager, Trustee, and Portfolio Advisor of the Fund

CAMI, a wholly-owned subsidiary of CIBC, is the Fund's Manager, Trustee, and Portfolio Advisor. As Manager, CAMI receives management fees with respect to the Fund's day-to-day business and operations, calculated based on the net asset value of each respective class of units of the Fund as described in *Management Fees*.

The Manager pays the Fund's operating expenses (other than certain fund costs) in respect of the classes of units of the Fund (except Class O unit), which may include but are not limited to, operating and administrative costs; regulatory fees; audit, and legal fees and expenses; trustee, safekeeping, custodial, and any agency fees; and investor servicing costs and costs of unitholder reports, prospectuses, Fund Facts, and other reports, in exchange for the Fund paying a fixed rate administration fee (plus applicable GST/HST) to the Manager with respect to those classes of units. For Class O units, no fixed administration fee will be charged. The Manager pays the Fund's operating expenses (other than certain Fund costs) allocated to Class O units of the Fund. The fixed administration fee payable by the Fund, may, in any particular period, exceed or be lower than the expenses we incur in providing such services to the Fund.

As Trustee, CAMI holds title to the Fund's property (cash and securities) on behalf of its unitholders. As Portfolio Advisor, CAMI provides, or arranges to provide investment advice and portfolio management services to the Fund. CAMI also compensates dealers in connection

with their marketing activities regarding the Fund. From time to time, CAMI may invest in units of the Fund.

Distributor

Dealers and other firms sell units of the Fund to investors. These dealers and other firms include CAMI's related dealers such as the CIBC Securities Inc. (CIBC SI), the CIBC Investor's Edge discount brokerage division of CIBC Investor Services Inc. (CIBC ISI), the CIBC Imperial Service division of CIBC ISI, and the CIBC Wood Gundy division of CIBC World Markets Inc. (CIBC WM). CIBC SI, CIBC ISI and CIBC WM are wholly-owned subsidiaries of CIBC.

CAMI may pay sales commissions and trailing commissions to these dealers and firms in connection with the sale of units of the Fund. These dealers and other firms may pay a portion of these sales commissions and trailing commissions to their advisors who sell units of the Fund to investors.

Brokerage Arrangements and Soft Dollars

The Portfolio Advisor or any portfolio sub-advisors make decisions, including the selection of markets and dealers and the negotiation of commissions, with respect to the purchase and sale of portfolio securities, certain derivative products and the execution of portfolio transactions. Brokerage business may be allocated by the Portfolio Advisor or any portfolio sub-advisor(s) to CIBC WM and CIBC World Markets Corp., each a subsidiary of CIBC. CIBC WM and CIBC World Markets Corp. may also earn spreads on the sale of fixed income securities, other securities, and certain derivative products to the Fund. A spread is the difference between the bid and ask prices for a security in the applicable marketplace, with respect to the execution of portfolio transactions. The spread will differ based upon various factors such as the nature and liquidity of the security.

Dealers, including CIBC WM and CIBC World Markets Corp., may furnish goods and services, other than order execution, to the Portfolio Advisor or any portfolio sub-advisor(s) when they process trades through them. These types of goods and services for which the Portfolio Advisor or a portfolio sub-advisor may direct brokerage commissions are research goods and services and order execution goods and services, and are referred to in the industry as "soft-dollar" arrangements. These goods and services received through soft dollar arrangements assist the Portfolio Advisor or any portfolio sub-advisor(s) with investment decision-making services for the Fund, or relate directly to the execution of portfolio transactions on behalf of the Fund. As per the terms of the portfolio advisory agreement and portfolio sub-advisory agreements, such soft dollar arrangements are in compliance with applicable laws.

During the period, the Fund did not pay any brokerage commissions or other fees to CIBC WM or CIBC World Markets Corp. Spreads associated with fixed income and other securities are not ascertainable and, for that reason, cannot be included when determining these amounts.

Fund Transactions

The Fund may enter into one or more of the following transactions (the *Related Party Transactions*) in reliance on the standing instructions issued by the Independent Review Committee (the *IRC*):

- invest in or hold equity securities of CIBC or issuers related to a portfolio sub-advisor;
- invest in or hold non-exchange-traded debt securities of CIBC or an issuer related to CIBC, with terms-to-maturity of 365 days or more, issued in a primary offering and in the secondary market;
- make an investment in the securities of an issuer for which CIBC WM, CIBC World Markets Corp., or any affiliate of CIBC (a *Related Dealer* or the *Related Dealers*) acts as an underwriter during the offering of the securities or at any time during the 60-day period following the completion of the offering of such securities (in the case of a "private placement" offering, in accordance with the Private Placement Relief Order and the policies and procedures relating to such investment);
- purchase equity or debt securities from, or sell them to, a Related Dealer, where it is acting as principal;
- undertake currency and currency derivative transactions where a related party is the counterparty;
- purchase securities from or sell securities to another investment fund or a managed account managed by the Manager or an affiliate (*inter-fund trades* or *cross-trades*); and
- engage in in-specie transfers by receiving portfolio securities from, or delivering portfolio securities to, a managed account or another investment fund managed by the Manager or an affiliate, in respect of a purchase or redemption of units of the Fund, subject to certain conditions.

At least annually, the IRC reviews the Related Party Transactions for which they have issued standing instructions. The IRC is required to advise the Canadian securities regulatory authorities, after a matter has been referred to or reported to it by the Manager, if it determines that an investment decision was not made in accordance with conditions imposed by securities legislation or the IRC in any Related Party Transactions requiring its approval.

Custodian

CIBC Mellon Trust Company is the custodian of the Fund (the *Custodian*). The Custodian holds cash and securities for the Fund and ensures that those assets are kept separate from any other cash or securities that the Custodian might be holding. The Custodian also provides other services to the Fund including record-keeping and processing of foreign exchange transactions. The fees and spreads for the services of the Custodian are paid by the Manager in exchange for the Fund charging a Fixed Administration Fee. CIBC owns a 50% interest in the Custodian.

Service Provider

The Custodian also provides certain services to the Fund, including securities lending, fund accounting and reporting, and portfolio valuation. The Manager receives fixed administration fee from the Fund, in return, the Manager pays certain operating expenses which includes custodial fees (including all applicable taxes) and the fees for fund accounting, reporting, and fund valuation (including all applicable taxes) to the Custodian. Where applicable, securities lending fees are applied against the revenue received by the Fund.

Renaissance China Plus Fund

Financial Highlights

The following tables show selected key financial information about the Fund and are intended to help you understand the Fund's financial performance for the period ended February 28, 2025 and August 31 of any other period(s) shown.

* Ratio has been annualized.

¹ This information is derived from the Fund's audited annual and unaudited interim financial statements.

² Net assets and distributions are based on the actual number of units outstanding at the relevant time. The total increase (decrease) from operations is based on the weighted average number of units outstanding during the period.

³ Distributions were paid in cash, reinvested in additional units of the Fund, or both.

⁴ This information is presented as at February 28, 2025 and August 31 of the period(s) shown.

⁵ Management expense ratio is based on the total expenses of the fund (excluding commissions and other portfolio transaction costs), incurred by or allocated to a class of units for the period shown, expressed as an annualized percentage of the daily average net asset value of that class during the period. The management expense ratio includes the fees attributable to exchange traded funds.

⁶ The decision to waive management fees and/or fixed administration fees is at the discretion of the Manager. The practice of waiving management fees and/or fixed administration fees may continue indefinitely or may be terminated at any time without notice to unitholders. The management expense ratio before waivers or absorptions includes the fees attributable to exchange traded funds, where applicable.

⁷ The trading expense ratio represents total commissions and other portfolio transaction costs before income taxes expressed as an annualized percentage of the daily average net asset value during the period. Spreads associated with fixed income securities trading are not ascertainable and, for that reason, are not included in the trading expense ratio calculation. Previously, the trading expense ratio included the fees attributable to exchange traded funds which are now no longer included in the TER. Prior year fees attributable to exchange traded funds have been reclassified to the management expense ratio and management expense ratio before waivers or absorptions.

⁸ The portfolio turnover rate indicates how actively the portfolio advisor and/or portfolio sub-advisor manages the portfolio investments. A portfolio turnover rate of 100% is equivalent to a fund buying and selling all of the securities in its portfolio once in the course of the period. The higher a portfolio turnover rate in a period, the greater the trading costs payable by a fund in the period, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a fund.

Management Fees

The Fund pays CAMI an annual management fee to cover the costs of managing the Fund. Management fees are based on the Fund's net asset value and are calculated daily and paid monthly. Management fees are paid to CAMI in consideration for providing, or arranging for the provision of, management, distribution, and portfolio advisory services. Advertising and promotional expenses, office overhead expenses, trailing commissions, and the fees of the portfolio sub-advisor are paid by CAMI out of the management fees received from the Fund. The Fund is required to pay applicable taxes on the management fees paid to CAMI. Refer to the simplified prospectus for the annual management fee rate for each class of units.

For Class O units, the management fee is negotiated with and paid by, or as directed by, unitholders or dealers and discretionary managers on behalf of unitholders. Such Class O management fee will not exceed the Class F unit management fee rate.

Renaissance China Plus Fund

The following table shows a breakdown of the services received in consideration of the management fees, as a percentage of the management fees collected from the Fund for the period ended February 28, 2025. These amounts do not include waived fees or absorbed expenses.

	Class A Units	Class F Units
Sales and trailing commissions paid to dealers	35.04%	0.00%
General administration, investment advice, and profit	64.96%	100.00%

Past Performance

The performance data provided assumes reinvestment of distributions only and does not take into account sales, redemption, distribution, or other optional charges payable by any unitholder that would have reduced returns. Past performance does not necessarily indicate how a fund will perform in the future.

The Fund's returns are after the deduction of fees and expenses, and the difference in returns between classes of units is primarily due to differences in the management expense ratio. See *Financial Highlights* section for the management expense ratio.

Year-by-Year Returns

These bar charts show the annual performance of each class of units of the Fund for each of the periods shown, and illustrate how the performance has changed from period to period. These bar charts show, in percentage terms, how an investment made on September 1 would have increased or decreased by August 31, unless otherwise indicated.

Summary of Investment Portfolio (as at February 28, 2025)

The summary of investment portfolio may change due to ongoing portfolio transactions of the investment fund. A quarterly update is available by visiting www.renaissanceinvestments.ca. The Top Positions table shows a fund's 25 largest positions. For funds with fewer than 25 positions in total, all positions are shown.

A note on forward-looking statements

The management report of fund performance may contain forward-looking statements. Forward-looking statements include statements that are predictive in nature, that depend upon or refer to future events or conditions, or that include words such as "expects", "anticipates", "intends", "plans", "believes", "estimates", or other similar wording. In addition, any statements that may be made concerning future performance, strategies, or prospects and possible future actions taken by the fund, are also forward-looking statements. Forward-looking statements are not guarantees of future performance. These statements involve known and unknown risks, uncertainties, and other factors that may cause the actual results and achievements of the fund to differ materially from those expressed or implied by such statements. Such factors include, but are not limited to: general economic, market, and business conditions; fluctuations in securities prices, interest rates, and foreign currency exchange rates; changes in government regulations; and catastrophic events.

The above list of important factors that may affect future results is not exhaustive. Before making any investment decisions, we encourage you to consider these and other factors carefully. CIBC Asset Management Inc. does not undertake, and specifically disclaims, any obligation to update or revise any forward-looking statements, whether as a result of new information, future developments, or otherwise prior to the release of the next management report of fund performance.
