A redefined core fixed income solution

The CIBC Core Fixed Income Pool is composed of a diverse mix of mutual funds and exchange-traded funds (ETFs) and is designed to deliver better risk adjusted returns and attractive yields.

- Largest exposure is to Canadian, global government and corporate debt to provide stability, yield and some potential for capital appreciation.
- Exposure to short-term debt to reduce interest rate risk and manage duration relative to the FTSE Canada Universe Bond Index.
- Exposure to high-yield debt, emerging markets debt and currency to help enhance yield, diversification and capital appreciation.
- High-yield debt exposure will typically range between 10% and 20%.
- Tactical management is employed to adjust the asset mix over the short- to medium-term based on changes in the market outlook.

Commissions, trailing commissions, management fees and expenses all may be associated with mutual fund investments. Please read the simplified prospectus before investing. To obtain a copy of the simplified prospectus, call [1888 888-FUND \(3863\)](tel:1888888FUND3863). Alternatively, you may obtain a copy from your advisor. Any information or discussion about the current characteristics of this mutual fund or how the portfolio manager is managing the mutual fund that is supplementary to information in the prospectus is not a discussion about material investment objectives or strategies, but solely a discussion of the current characteristics or manner of fulfilling the investment objectives and strategies, and is subject to change without notice. Mutual fund securities are not covered by the Canada Deposit Insurance Corporation or by any other government deposit insurer, nor are they guaranteed. The indicated rates of return are the historical annual compounded total returns as at March 31, 2025 including changes in unit value and reinvestment of all distributions, but do not take into account sales, redemption, distribution or optional charges or income taxes payable by any unitholder that would have reduced returns.

There can be no assurance that a money market fund will be able to maintain its net asset value per unit at a constant amount or that the full amount of your investment will be returned to you. For money market funds, the performance data provided assumes reinvestment of distributions only but does not take into account sales, redemption, distribution or optional charges or income taxes payable by any unitholder that would have reduced returns.

Ares Strategic Income Fund is a prospectus exempt fund and is not subject to the same regulatory requirements as publicly offered investment funds offered by way of prospectus. This material does not form part of an offering document and does not constitute an offer to sell, or a solicitation of an offer to purchase, any securities of the fund. Any such offer or solicitation may only be made through, and in accordance with, the terms of the subscription agreement and confidential offering memorandum of the fund (collectively, the "Offering Document"), and the constating documents of the fund.

The CIBC Alternative Credit Strategy fund is permitted to invest in certain assets and employ alternative investment strategies generally prohibited by conventional mutual funds. The CIBC Alternative Credit Strategy fund may use leverage through the use of derivatives, short sales, and/or borrowing within prescribed limits. The fund may also use derivatives for currency management purposes. The fund's use of derivatives may introduce leverage into the fund. Leverage occurs when the fund's notional exposure to underlying assets is greater than the amount invested and is an investment technique that can magnify gains and losses.

CIBC ETFs are managed by CIBC Asset Management Inc. ("CAM"), a subsidiary of Canadian Imperial Bank of Commerce.
