Management Discussion of Fund Performance

Investment Objective and Strategies

Investment Objective: Renaissance Canadian Growth Fund (referred to as the *Fund*) seeks to achieve long-term investment returns through capital growth, primarily in equity securities of large- to medium-sized Canadian issuers.

Investment Strategies: The Fund invests primarily in issuers listed on Canadian exchanges and may also invest in securities of issuers located in other countries. Issuers will typically have an established record of earnings, financial strength, good management, and above-average relative growth potential, and will typically have a market capitalization of more than \$1 billion.

Risk

The Fund is a Canadian equity fund that is suitable for long-term investors who can tolerate medium investment risk.

For the period ended August 31, 2021, the Fund's overall level of risk remains as discussed in the simplified prospectus.

Results of Operations

The Fund's Portfolio Advisor is CIBC Asset Management Inc. (referred to as *CAMI*, the *Manager* or the *Portfolio Advisor*). The commentary that follows provides a summary of the results of operations for the period ended August 31, 2021. All dollar figures are expressed in thousands, unless otherwise indicated.

The Fund's net asset value increased by 45% during the period, from \$781,536 as at August 31, 2020 to \$1,136,425 as at August 31, 2021. Net sales of \$82,019 and positive investment performance resulted in an overall increase in net asset value.

Class A units of the Fund posted a return of 30.0% for the period. The Fund's benchmark, the S&P/TSX Composite Index (referred to as the *benchmark*), returned 28.2% for the same period. The Fund's return is after the deduction of fees and expenses, unlike the benchmark's return. See the section *Past Performance* for the returns of other classes of units offered by the Fund.

COVID-19 infection rates rose during the period, and lockdowns were implemented to halt the spread of the virus. Near the end of 2020, a

number of vaccines showed higher-than-expected efficacy rates during their final clinical trials and were approved by health authorities.

Vaccine approvals, rollouts and economic reopenings drove a recovery in cyclical stocks, primarily in the U.S., where reopening led the rest of the world. Vaccination campaigns accelerated in Canada, the U.S. and Europe, but many developing nations were much further behind.

Inflation expectations rose quickly following the worst of the COVID-19 crisis in response to tighter supply and higher demand. Higher inflation meant higher prices across most commodities. Specifically, demand for many base metals and energy commodities experienced sharp increases as a result of infrastructure plans and economic growth, while supply remained constrained.

Stock selection in the information technology sector contributed to the Fund's performance. Significantly underweight exposure to materials and a significant overweight allocation to financials also contributed to performance. Individual contributors to performance included IAC/InterActiveCorp., Unity Software Inc., Brookfield Asset Management Inc. and Trisura Group Ltd.

IAC/InterActiveCorp's share price rose after the company announced the spin-out of an undervalued asset. Unity Software's shares performed well after a successful initial public offering. Brookfield Asset Management, a long-term core holding, benefited from low interest rates and strengthening global growth. Trisura Group benefitted from growth in Canada and the U.S.

A significant overweight allocation to the consumer discretionary sector and moderate underweight exposure to health care detracted from the Fund's performance. Security selection in real estate also detracted from performance. Individual detractors from performance included significantly overweight holdings in MasterCard Inc., Takeda Pharmaceutical Co. Ltd. and Alibaba Group Holding Ltd.

MasterCard was negatively affected by pandemic-related travel reductions. Takeda Pharmaceutical's shares were affected by concerns regarding the durability of its base business and its higher debt levels than most of its peers. Alibaba faced increased regulatory scrutiny.

The Portfolio Advisor added new holdings in Mersana Therapeutics Inc., Ascendis Pharma A/S, Deciphera Pharmaceuticals Inc., Sarepta Therapeutics Inc. and Silk Road Medical Inc. These additions were made to increase the Fund's exposure to biotechnology to reflect an anticipated change in the benchmark with higher exposure to the health care sector.

The Portfolio Advisor added a holding in MongoDB Inc. as it is a major disruptor in the database market with a cloud offering that is gaining traction. Cloudflare Inc. was added for its leadership in network-as-a-service, providing increasing network capabilities through the cloud and further expanding into edge computing capabilities. Zscaler Inc. was purchased as it provides exposure to cloud security as more companies transition to the cloud. Air Canada was added to the Fund following the finalization of details in its government bailout.

The Fund participated in the initial public offering of MDA Ltd., a high-growth, space-focused satellite and robotics company. MDA is a strong candidate to be included in North American and global exchange-traded funds.

A holding in Alphabet Inc. was increased as it is expected to benefit from a rebound in advertising spending, particularly for travel, in 2021. CVS Health Corp. and Takeda Pharmaceutical were both added to in order to increase the Fund's exposure to health care with the anticipated benchmark change. The Portfolio Advisor also increased the Fund's allocations across banks and insurance groups as the financials sector is expected to benefit from a steepening yield curve and economic growth.

NVIDIA Corp. was eliminated from the Fund as a result of the increased risk from unsustainable cryptocurrency demand for graphics processing units. The Trade Desk Inc. and Unity Software were both sold to fund new investments. Waste Connections Inc. was eliminated to take profits after a period of strong performance.

A holding in Kirkland Lake Gold Ltd. was trimmed following some operational issues and disappointing quarterly results. The Portfolio Advisor also shifted some of the Fund's renewable energy exposure from Brookfield Renewable Partners L.P. to Boralex Inc. The latter holding has stronger growth attributes, enhanced by recent build approvals in France.

The Fund's lower portfolio turnover rate for the period was primarily due to the portfolio Sub-Advisor changes described under "Recent Developments".

Recent Developments

Effective September 1, 2020, CAMI assumed all portfolio management responsibilities for the Fund, replacing Connor, Clark & Lunn Investment Management Ltd., Guardian Capital LP, and Picton Mahoney Asset Management.

Effective September 1, 2020, the annual management fee payable was reduced from 1.75% to 1.55% in respect of Class A units of the Fund, and from 0.75% to 0.55% in respect of Class F units of the Fund.

Effective September 1, 2021, CAMI, as manager, will pay the Fund's operating expenses, other than certain expenses, in exchange for the payment by the Fund of an annual fixed rate administration fee. This fee will apply to all of the Fund's classes, other than Class O, and will

be equal to a specified percentage of the net asset value of each class of the Fund.

The COVID-19 pandemic and the restrictions imposed by governments around the world to limit its spread have disrupted the global economy and financial markets in unprecedented and unpredictable ways. The COVID-19 outbreak may adversely affect the performance of the Fund.

Related Party Transactions

Canadian Imperial Bank of Commerce (referred to as *CIBC*) and its affiliates have the following roles and responsibilities with respect to the Fund, and receive the fees described below in connection with their roles and responsibilities.

Manager, Trustee, and Portfolio Advisor of the Fund

CAMI, a wholly-owned subsidiary of CIBC, is the Fund's Manager, Trustee, and Portfolio Advisor. As Manager, CAMI receives management fees with respect to the Fund's day-to-day business and operations, calculated based on the net asset value of each respective class of units of the Fund as described in *Management Fees*. As Trustee, CAMI holds title to the Fund's property (cash and securities) on behalf of its unitholders. As Portfolio Advisor, CAMI provides, or arranges to provide for, investment advice and portfolio management services to the Fund. CAMI also compensates dealers in connection with their marketing activities regarding the Fund. From time to time, CAMI may invest in units of the Fund.

Distributor

Dealers and other firms sell units of the Fund to investors. These dealers and other firms include CAMI's related dealers such as the CIBC Investor's Edge discount brokerage division of CIBC Investor Services Inc. (referred to as *CIBC ISI*), the CIBC Imperial Service division of CIBC ISI, and the CIBC Wood Gundy division of CIBC World Markets Inc. (referred to as *CIBC WM*). CIBC ISI and CIBC WM are wholly-owned subsidiaries of CIBC.

CAMI may pay sales commissions and trailing commissions to these dealers and firms in connection with the sale of units of the Fund. These dealers and other firms may pay a portion of these sales commissions and trailing commissions to their advisors who sell units of the Fund to investors.

Brokerage Arrangements and Soft Dollars

CAMI generally delegates trading and execution authority to the portfolio sub-advisors and does not, in its capacity as portfolio advisor, receive any goods or services directly through soft dollar arrangements.

The Portfolio Advisor and any portfolio sub-advisors make decisions, including the selection of markets and dealers and the negotiation of commissions, with respect to the purchase and sale of portfolio securities, certain derivative products and the execution of portfolio transactions. Brokerage business may be allocated by the Portfolio Advisor and any portfolio sub-advisors to CIBC WM and CIBC World Markets Corp., each a subsidiary of CIBC. CIBC WM and CIBC World Markets Corp. may also earn spreads on the sale of fixed income securities, other securities, and certain derivative products to the Fund. A spread is the difference between the bid and ask prices for a security in the applicable marketplace, with respect to the execution of portfolio

transactions. The spread will differ based upon various factors such as the nature and liquidity of the security.

Dealers, including CIBC WM and CIBC World Markets Corp., may furnish goods and services, other than order execution, to the Portfolio Advisor and any portfolio sub-advisors when they process trades through them (referred to in the industry as “soft-dollar” arrangements). These goods and services are paid for with a portion of the brokerage commissions and assist the Portfolio Advisor and any portfolio sub-advisor with investment decision-making services for the Fund or relate directly to the execution of portfolio transactions on behalf of the Fund. As per the terms of the portfolio sub-advisory agreements, such soft dollar arrangements are in compliance with applicable laws.

In addition, the Manager may enter into commission recapture arrangements with certain dealers with respect to the Fund. Any commission recaptured will be paid to the Fund.

During the period, the Fund paid brokerage commissions and other fees of \$107,534 to CIBC WM; the Fund did not pay any brokerage commissions or other fees to CIBC World Markets Corp. Spreads associated with fixed income and other securities are not ascertainable and, for that reason, cannot be included when determining these amounts.

Fund Transactions

The Fund may enter into one or more of the following transactions (referred to as the *Related Party Transactions*) in reliance on the standing instructions issued by the Independent Review Committee (referred to as the *IRC*):

- invest in or hold equity securities of CIBC or issuers related to a portfolio sub-advisor;
- invest in or hold non-exchange-traded debt securities of CIBC or an issuer related to CIBC, with terms-to-maturity of 365 days or more, issued in a primary offering and in the secondary market;
- make an investment in the securities of an issuer for which CIBC WM, CIBC World Markets Corp., or any affiliate of CIBC (referred to as a *Related Dealer* or the *Related Dealers*) acts as an underwriter during the offering of the securities or at any time during the 60-day period following the completion of the offering of such securities (in the case of a “private placement” offering, in accordance with the Private Placement Relief Order and the policies and procedures relating to such investment);
- purchase equity or debt securities from, or sell them to, a Related Dealer, where it is acting as principal;
- undertake currency and currency derivative transactions where a related party is the counterparty;
- purchase securities from or sell securities to another investment fund or a managed account managed by the Manager or an affiliate (referred to as *inter-fund trades* or *cross-trades*); and
- engage in in-specie transfers by receiving portfolio securities from, or delivering portfolio securities to, a managed account or another investment fund managed by the Manager or an affiliate, in respect

of a purchase or redemption of units of the Fund, subject to certain conditions.

At least annually, the IRC reviews the Related Party Transactions for which they have issued standing instructions. The IRC is required to advise the Canadian securities regulatory authorities, after a matter has been referred to or reported to it by the Manager, if it determines that an investment decision was not made in accordance with conditions imposed by securities legislation or the IRC in any Related Party Transactions requiring its approval.

Custodian

CIBC Mellon Trust Company is the custodian of the Fund (referred to as the *Custodian*). The Custodian holds all cash and securities for the Fund and ensures that those assets are kept separate from any other cash or securities that the custodian might be holding. The Custodian also provides other services to the Fund including record-keeping and processing of foreign exchange transactions. The fees and spreads for services of the Custodian directly related to the execution of portfolio transactions by the Fund are paid by CAMI and/or dealer(s) directed by CAMI, up to the amount of the credits generated under soft dollar arrangements from trading on behalf of the Fund during that month. All other fees and spreads for the services of the Custodian are paid by the Manager and charged to the Fund on a recoverable basis. CIBC owns a 50% interest in the Custodian.

Service Provider

CIBC Mellon Global Securities Services Company (referred to as *CIBC GSS*) provides certain services to the Fund, including securities lending, fund accounting and reporting, and portfolio valuation. Such servicing fees are paid by the Manager and charged to the Fund on a recoverable basis. CIBC indirectly owns a 50% interest in CIBC GSS.

⁴ This information is presented as at August 31 of the period(s) shown.

⁵ Management expense ratio is based on the total expenses of the fund (excluding commissions and other portfolio transaction costs), incurred by or allocated to a class of units for the period shown, expressed as an annualized percentage of the daily average net asset value of that class during the period.

⁶ The decision to waive and/or absorb management fees and operating expenses is at the discretion of the Manager. The practice of waiving and/or absorbing management fees and operating expenses may continue indefinitely or may be terminated at any time without notice to unitholders.

⁷ The trading expense ratio represents total commissions and other portfolio transaction costs before income taxes expressed as an annualized percentage of the daily average net asset value during the period. Spreads associated with fixed income securities trading are not ascertainable and, for that reason, are not included in the trading expense ratio calculation.

⁸ The portfolio turnover rate indicates how actively the portfolio advisor and/or portfolio sub-advisor manages the portfolio investments. A portfolio turnover rate of 100% is equivalent to a fund buying and selling all of the securities in its portfolio once in the course of the period. The higher a portfolio turnover rate in a period, the greater the trading costs payable by a fund in the period, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a fund.

Management Fees

The Fund pays CAMI an annual management fee to cover the costs of managing the Fund. Management fees are based on the Fund's net asset value and are calculated daily and paid monthly. Management fees are paid to CAMI in consideration for providing, or arranging for the provision of, management, distribution, and portfolio advisory services. Advertising and promotional expenses, office overhead expenses, trailing commissions, and the fees of the portfolio sub-advisors are paid by CAMI out of the management fees received from the Fund. The Fund is required to pay applicable taxes on the management fees paid to CAMI. Refer to the simplified prospectus for the annual management fee rate for each class of units.

For Class O units, the management fee is negotiated with and paid by, or as directed by, unitholders or dealers and discretionary managers on behalf of unitholders. Such Class O management fee will not exceed the Class F unit management fee rate.

The following table shows a breakdown of the services received in consideration of the management fees, as a percentage of the management fees collected from the Fund for the period ended August 31, 2021. These amounts do not include waived fees or absorbed expenses.

| | Class A Units | Class F Units |
|---|---------------|---------------|
| Sales and trailing commissions paid to dealers | 48.13% | 0.00% |
| General administration, investment advice, and profit | 51.87% | 100.00% |

Past Performance

The performance data provided assumes reinvestment of distributions only and does not take into account sales, redemption, distribution, or other optional charges payable by any unitholder that would have reduced returns. Past performance does not necessarily indicate how a fund will perform in the future.

The Fund's returns are after the deduction of fees and expenses, and the difference in returns between classes of units is primarily due to differences in the management expense ratio. See *Financial Highlights* section for the management expense ratio.

Year-by-Year Returns

These bar charts show the annual performance of each class of units of the Fund for each of the periods shown, and illustrate how the performance has changed from period to period. These bar charts show, in percentage terms, how an investment made on September 1 would have increased or decreased by August 31, unless otherwise indicated.

A note on forward-looking statements

The management report of fund performance may contain forward-looking statements. Forward-looking statements include statements that are predictive in nature, that depend upon or refer to future events or conditions, or that include words such as “expects”, “anticipates”, “intends”, “plans”, “believes”, “estimates”, or other similar wording. In addition, any statements that may be made concerning future performance, strategies, or prospects and possible future actions taken by the fund, are also forward-looking statements. Forward-looking statements are not guarantees of future performance. These statements involve known and unknown risks, uncertainties, and other factors that may cause the actual results and achievements of the fund to differ materially from those expressed or implied by such statements. Such factors include, but are not limited to: general economic, market, and business conditions; fluctuations in securities prices, interest rates, and foreign currency exchange rates; changes in government regulations; and catastrophic events.

The above list of important factors that may affect future results is not exhaustive. Before making any investment decisions, we encourage you to consider these and other factors carefully. CIBC Asset Management Inc. does not undertake, and specifically disclaims, any obligation to update or revise any forward-looking statements, whether as a result of new information, future developments, or otherwise prior to the release of the next management report of fund performance.
