

Annual Management Report of Fund Performance

for the financial year ended August 31, 2021

All figures are reported in Canadian dollars unless otherwise noted.

This annual management report of fund performance contains financial highlights but does not contain the complete annual financial statements of the investment fund. You can get a copy of the annual financial statements at your request, and at no cost, by calling toll-free at 1-888-888-3863, by writing to us at Renaissance Investments, 1500 Robert-Bourassa Boulevard, Suite 800, Montreal, QC, H3A 3S6, or by visiting our website at www.renaissanceinvestments.ca or SEDAR at www.sedar.com.

Unitholders may also contact us using one of these methods to request a copy of the investment fund's interim financial report, proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure.

Management Discussion of Fund Performance

Investment Objective and Strategies

Investment Objective: Renaissance Global Health Care Fund (referred to as the *Fund*) seeks to obtain long-term capital appreciation by investing primarily in U.S. companies and global companies with U.S. operations, or exposure to U.S. markets, or whose securities are traded on a U.S. exchange, which are engaged in the design, development, manufacturing, and distribution of products or services in the health care sectors. The Fund will invest in a diversified portfolio, which will mainly include securities in the medical technology, biotechnology, health care, and pharmaceutical sectors.

Investment Strategies: The Fund focuses on bottom-up stock selection using value management filters within each sub-sector, and seeks to shift assets into those sub-sectors that have better potential for future performance.

Risk

The Fund is a sector equity fund that is suitable for long-term investors who can tolerate medium investment risk.

For the period ended August 31, 2021, the Fund's overall level of risk remains as discussed in the simplified prospectus.

Results of Operations

The Fund's portfolio Sub-Advisor is Wellington Management Canada ULC (referred to as the *Sub-Advisor*). The commentary that follows provides a summary of the results of operations for the period ended August 31, 2021. All dollar figures are expressed in thousands, unless otherwise indicated.

The Fund's net asset value increased by 19% during the period, from \$765,540 as at August 31, 2020 to \$911,699 as at August 31, 2021. Net sales of \$36,321 and positive investment performance resulted in an overall increase in net asset value.

Class A units of the Fund posted a return of 12.4% for the period. The Fund's benchmark, the MSCI World Health Care Index (referred to as the *benchmark*), returned 20.3% for the same period. The Fund's return is after the deduction of fees and expenses, unlike the

benchmark's return. See the section *Past Performance* for the returns of other classes of units offered by the Fund.

The economic impact of COVID-19 continued to be a challenge during the period, but there were positive vaccine developments near the end of 2020. Beyond vaccine development, the COVID-19 pandemic highlighted the need for more significant testing infrastructure in developed and emerging markets, which drove demand within the diagnostics industry. Medical device trends and hospital utilization, while significantly lower during the pandemic, began to recover gradually with vaccine rollouts and better availability.

The biopharmaceutical industry responded to the pandemic by spending research and development dollars to develop treatments and vaccines for COVID-19. This coordinated and good-will effort led to a more positive view of the industry. The new U.S. administration appeared likely to be supportive of more moderate health care policies, which has increased the likelihood of manageable drug price legislation over the next few years.

Security selection within medical technology and biopharmaceutical large-capitalization stocks detracted from the Fund's performance. A significant overweight allocation to biopharmaceutical mid-cap stocks also detracted from performance. Individual detractors from performance included a significant overweight allocation to Daiichi Sankyo Co. Ltd. There was a substantial shift from growth stocks toward value-oriented stocks in the Japanese market. The company was also affected by concerns over competition from Seagen Inc., as both companies develop antibody drug conjugates. However, the Sub-Advisor continues to have a positive outlook for the stock.

Security selection within biopharmaceutical mid-cap stocks and health care services contributed to the Fund's performance. A significant underweight allocation to the biopharma large-cap segment also contributed to performance.

Individual contributors to performance included a significant overweight holding in Eli Lilly and Co., which benefited from positive clinical developments, including solid phase-three study results for its injectable type 2 diabetes drug. It also announced news of promising results from a phase-two study of Donanemab, an investigational

antibody therapy for the treatment of Alzheimer's disease. It later received the U.S. Food and Drug Administration's (referred to as the *FDA*) "Breakthrough Drug Therapy" designation for the drug, which could provide an accelerated pathway for filing later this year, a few years earlier than expected.

The Sub-Advisor added a new holding in Illumina Inc. for its strong pipeline in 2021 and accelerating revenue growth. The company is benefiting from continued strength in sequencing consumables and services. The Sub-Advisor used share price weakness as an opportunity to add the holding in March. An existing holding in Syneos Health Inc. was increased after an earnings release decline in May. The company can provide both clinical and commercial offerings to its customers, which the Sub-Advisor views as an increasingly important differentiator in the market.

Thermo Fisher Scientific Inc. was eliminated after strong performance during the pandemic. The company benefited from increased demand for its life science tools and diagnostics businesses. A holding in Eli Lilly was trimmed in response to strong performance following the announcement that it had received the *FDA*'s "Breakthrough Drug Therapy" designation for Donanemab. However, the Fund still has a significant holding in the stock, and the Sub-Advisor remains positive on the long-term opportunity for the company.

Recent Developments

Effective September 1, 2021, CAMI, as manager, will pay the Fund's operating expenses, other than certain expenses, in exchange for the payment by the Fund of an annual fixed rate administration fee. This fee will apply to all of the Fund's classes, other than Class O, and will be equal to a specified percentage of the net asset value of each class of the Fund.

The COVID-19 pandemic and the restrictions imposed by governments around the world to limit its spread have disrupted the global economy and financial markets in unprecedented and unpredictable ways. The COVID-19 outbreak may adversely affect the performance of the Fund.

Related Party Transactions

Canadian Imperial Bank of Commerce (referred to as *CIBC*) and its affiliates have the following roles and responsibilities with respect to the Fund, and receive the fees described below in connection with their roles and responsibilities.

Manager, Trustee, and Portfolio Advisor of the Fund

CAMI, a wholly-owned subsidiary of *CIBC*, is the Fund's Manager, Trustee, and Portfolio Advisor. As Manager, CAMI receives management fees with respect to the Fund's day-to-day business and operations, calculated based on the net asset value of each respective class of units of the Fund as described in *Management Fees*. As Trustee, CAMI holds title to the Fund's property (cash and securities) on behalf of its unitholders. As Portfolio Advisor, CAMI provides, or arranges to provide for, investment advice and portfolio management services to the Fund. CAMI also compensates dealers in connection with their marketing activities regarding the Fund. From time to time, CAMI may invest in units of the Fund.

Distributor

Dealers and other firms sell units of the Fund to investors. These dealers and other firms include CAMI's related dealers such as the *CIBC Investor's Edge* discount brokerage division of *CIBC Investor Services Inc.* (referred to as *CIBC ISI*), the *CIBC Imperial Service* division of *CIBC ISI*, and the *CIBC Wood Gundy* division of *CIBC World Markets Inc.* (referred to as *CIBC WM*). *CIBC ISI* and *CIBC WM* are wholly-owned subsidiaries of *CIBC*.

CAMI may pay sales commissions and trailing commissions to these dealers and firms in connection with the sale of units of the Fund. These dealers and other firms may pay a portion of these sales commissions and trailing commissions to their advisors who sell units of the Fund to investors.

Brokerage Arrangements and Soft Dollars

CAMI generally delegates trading and execution authority to the portfolio sub-advisors and does not, in its capacity as portfolio advisor, receive any goods or services directly through soft dollar arrangements.

The Portfolio Advisor and any portfolio sub-advisors make decisions, including the selection of markets and dealers and the negotiation of commissions, with respect to the purchase and sale of portfolio securities, certain derivative products and the execution of portfolio transactions. Brokerage business may be allocated by the Portfolio Advisor and any portfolio sub-advisor to *CIBC WM* and *CIBC World Markets Corp.*, each a subsidiary of *CIBC*. *CIBC WM* and *CIBC World Markets Corp.* may also earn spreads on the sale of fixed income securities, other securities, and certain derivative products to the Fund. A spread is the difference between the bid and ask prices for a security in the applicable marketplace, with respect to the execution of portfolio transactions. The spread will differ based upon various factors such as the nature and liquidity of the security.

Dealers, including *CIBC WM* and *CIBC World Markets Corp.*, may furnish goods and services, other than order execution, to the Portfolio Advisor and any portfolio sub-advisors when they process trades through them (referred to in the industry as "soft-dollar" arrangements). These goods and services are paid for with a portion of the brokerage commissions and assist the Portfolio Advisor and any portfolio sub-advisor with investment decision-making services for the Fund or relate directly to the execution of portfolio transactions on behalf of the Fund. As per the terms of the portfolio sub-advisory agreements, such soft dollar arrangements are in compliance with applicable laws.

In addition, the Manager may enter into commission recapture arrangements with certain dealers with respect to the Fund. Any commission recaptured will be paid to the Fund.

During the period, the Fund did not pay any brokerage commissions or other fees to *CIBC WM* or *CIBC World Markets Corp.* Spreads associated with fixed income and other securities are not ascertainable and, for that reason, cannot be included when determining these amounts.

Fund Transactions

The Fund may enter into one or more of the following transactions (referred to as the *Related Party Transactions*) in reliance on the

standing instructions issued by the Independent Review Committee (referred to as the *IRC*):

- invest in or hold equity securities of CIBC or issuers related to a portfolio sub-advisor;
- invest in or hold non-exchange-traded debt securities of CIBC or an issuer related to CIBC, with terms-to-maturity of 365 days or more, issued in a primary offering and in the secondary market;
- make an investment in the securities of an issuer for which CIBC WM, CIBC World Markets Corp., or any affiliate of CIBC (referred to as a *Related Dealer* or the *Related Dealers*) acts as an underwriter during the offering of the securities or at any time during the 60-day period following the completion of the offering of such securities (in the case of a “private placement” offering, in accordance with the Private Placement Relief Order and the policies and procedures relating to such investment);
- purchase equity or debt securities from, or sell them to, a Related Dealer, where it is acting as principal;
- undertake currency and currency derivative transactions where a related party is the counterparty;
- purchase securities from or sell securities to another investment fund or a managed account managed by the Manager or an affiliate (referred to as *inter-fund trades* or *cross-trades*); and
- engage in in-specie transfers by receiving portfolio securities from, or delivering portfolio securities to, a managed account or another investment fund managed by the Manager or an affiliate, in respect of a purchase or redemption of units of the Fund, subject to certain conditions.

At least annually, the IRC reviews the Related Party Transactions for which they have issued standing instructions. The IRC is required to advise the Canadian securities regulatory authorities, after a matter has been referred to or reported to it by the Manager, if it determines that an investment decision was not made in accordance with conditions imposed by securities legislation or the IRC in any Related Party Transactions requiring its approval.

Custodian

CIBC Mellon Trust Company is the custodian of the Fund (referred to as the *Custodian*). The Custodian holds all cash and securities for the Fund and ensures that those assets are kept separate from any other cash or securities that the custodian might be holding. The Custodian also provides other services to the Fund including record-keeping and processing of foreign exchange transactions. The fees and spreads for services of the Custodian directly related to the execution of portfolio transactions by the Fund are paid by CAMI and/or dealer(s) directed by CAMI, up to the amount of the credits generated under soft dollar arrangements from trading on behalf of the Fund during that month. All other fees and spreads for the services of the Custodian are paid by the Manager and charged to the Fund on a recoverable basis. CIBC owns a 50% interest in the Custodian.

Service Provider

CIBC Mellon Global Securities Services Company (referred to as *CIBC GSS*) provides certain services to the Fund, including securities

lending, fund accounting and reporting, and portfolio valuation. Such servicing fees are paid by the Manager and charged to the Fund on a recoverable basis. CIBC indirectly owns a 50% interest in CIBC GSS.

Renaissance Global Health Care Fund

Financial Highlights

The following tables show selected key financial information about the Fund and are intended to help you understand the Fund's financial performance for the period ended August 31.

The Fund's Net Assets per Unit¹ - Class A Units

	2021	2020	2019	2018	2017
Net Assets, beginning of period	\$ 54.71	\$ 47.92	\$ 49.43	\$ 44.26	\$ 44.56
Increase (decrease) from operations:					
Total revenue	\$ 0.65	\$ 0.63	\$ 0.99	\$ 0.56	\$ 0.68
Total expenses	(1.77)	(1.66)	(1.53)	(1.44)	(1.43)
Realized gains (losses) for the period	4.68	4.04	5.09	2.92	3.31
Unrealized gains (losses) for the period	3.08	5.60	(6.16)	4.01	(0.87)
Total increase (decrease) from operations²	\$ 6.64	\$ 8.61	\$ (1.61)	\$ 6.05	\$ 1.69
Distributions:					
From income (excluding dividends)	\$ —	\$ —	\$ —	\$ —	\$ —
From dividends	—	—	—	—	—
From capital gains	—	1.97	—	1.12	1.92
Return of capital	—	—	—	—	—
Total Distributions³	\$ —	\$ 1.97	\$ —	\$ 1.12	\$ 1.92
Net Assets, end of period	\$ 61.49	\$ 54.71	\$ 47.92	\$ 49.43	\$ 44.26

¹ This information is derived from the Fund's audited annual financial statements.

² Net assets and distributions are based on the actual number of units outstanding at the relevant time. The total increase (decrease) from operations is based on the weighted average number of units outstanding during the period.

³ Distributions were paid in cash, reinvested in additional units of the Fund, or both.

Ratios and Supplemental Data - Class A Units

	2021	2020	2019	2018	2017
Total Net Asset Value (000s)⁴	\$ 421,543	\$ 397,750	\$ 358,511	\$ 401,269	\$ 398,882
Number of Units Outstanding⁴	6,855,600	7,270,020	7,481,510	8,117,563	9,011,270
Management Expense Ratio⁵	2.94%	2.99%	3.02%	3.02%	3.02%
Management Expense Ratio before waivers or absorptions⁵	2.96%	2.99%	3.04%	3.05%	3.07%
Trading Expense Ratio⁷	0.03%	0.04%	0.04%	0.02%	0.02%
Portfolio Turnover Rate⁸	38.28%	43.20%	35.42%	16.87%	17.08%
Net Asset Value per Unit	\$ 61.49	\$ 54.71	\$ 47.92	\$ 49.43	\$ 44.26

⁴ This information is presented as at August 31 of the period(s) shown.

⁵ Management expense ratio is based on the total expenses of the fund (excluding commissions and other portfolio transaction costs), incurred by or allocated to a class of units for the period shown, expressed as an annualized percentage of the daily average net asset value of that class during the period.

⁶ The decision to waive and/or absorb management fees and operating expenses is at the discretion of the Manager. The practice of waiving and/or absorbing management fees and operating expenses may continue indefinitely or may be terminated at any time without notice to unitholders.

⁷ The trading expense ratio represents total commissions and other portfolio transaction costs before income taxes expressed as an annualized percentage of the daily average net asset value during the period. Spreads associated with fixed income securities trading are not ascertainable and, for that reason, are not included in the trading expense ratio calculation.

⁸ The portfolio turnover rate indicates how actively the portfolio advisor and/or portfolio sub-advisor manages the portfolio investments. A portfolio turnover rate of 100% is equivalent to a fund buying and selling all of the securities in its portfolio once in the course of the period. The higher a portfolio turnover rate in a period, the greater the trading costs payable by a fund in the period, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a fund.

Spreads associated with fixed income securities trading are not ascertainable and, for that reason, are not included in the trading expense ratio calculation.

⁸ The portfolio turnover rate indicates how actively the portfolio advisor and/or portfolio sub-advisor manages the portfolio investments. A portfolio turnover rate of 100% is equivalent to a fund buying and selling all of the securities in its portfolio once in the course of the period. The higher a portfolio turnover rate in a period, the greater the trading costs payable by a fund in the period, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a fund.

Management Fees

The Fund pays CAMI an annual management fee to cover the costs of managing the Fund. Management fees are based on the Fund's net asset value and are calculated daily and paid monthly. Management fees are paid to CAMI in consideration for providing, or arranging for the provision of, management, distribution, and portfolio advisory services. Advertising and promotional expenses, office overhead expenses, trailing commissions, and the fees of the portfolio sub-advisor are paid by CAMI out of the management fees received from the Fund. The Fund is required to pay applicable taxes on the management fees paid to CAMI. Refer to the simplified prospectus for the annual management fee rate for each class of units.

For Class O units, the management fee is negotiated with and paid by, or as directed by, unitholders or dealers and discretionary managers on behalf of unitholders. Such Class O management fee will not exceed the Class F unit management fee rate.

The following table shows a breakdown of the services received in consideration of the management fees, as a percentage of the management fees collected from the Fund for the period ended August 31, 2021. These amounts do not include waived fees or absorbed expenses.

	Class A Units	Class F Units
Sales and trailing commissions paid to dealers	31.46%	0.00%
General administration, investment advice, and profit	68.54%	100.00%

Past Performance

The performance data provided assumes reinvestment of distributions only and does not take into account sales, redemption, distribution, or other optional charges payable by any unitholder that would have reduced returns. Past performance does not necessarily indicate how a fund will perform in the future.

The Fund's returns are after the deduction of fees and expenses, and the difference in returns between classes of units is primarily due to differences in the management expense ratio. See *Financial Highlights* section for the management expense ratio.

Year-by-Year Returns

These bar charts show the annual performance of each class of units of the Fund for each of the periods shown, and illustrate how the performance has changed from period to period. These bar charts show, in percentage terms, how an investment made on September 1 would have increased or decreased by August 31, unless otherwise indicated.

Annual Compound Returns

This table shows the annual compound return of each class of units of the Fund for each indicated period ended on August 31, 2021. The annual compound return is compared to the Fund's benchmark.

The Fund's benchmark is the MSCI World Health Care Index.

	1 Year	3 Years	5 Years	10 Years	or	Since Inception	Inception Date
Class A units	12.4%	8.9%	9.0%	15.6%			November 2, 1996
MSCI World Health Care Index	20.3%	14.2%	13.5%	18.1%			
Class F units	14.0%	10.5%	10.6%	17.2%			December 12, 2000
MSCI World Health Care Index	20.3%	14.2%	13.5%	18.1%			
Class O units	15.8%	12.2%	12.3%	19.2%			January 2, 2001
MSCI World Health Care Index	20.3%	14.2%	13.5%	18.1%			

MSCI World Health Care Index is a market-weighted Index composed of securities traded in 22 of the world's most developed countries. Securities are listed on exchanges in the U.S., Europe, Canada, Australia, New Zealand, and the Far East. The health care sector consists of several industry groups including health care equipment and services, pharmaceuticals and biotechnology.

A discussion of the Fund's relative performance compared to its benchmark can be found in *Results of Operations*.

Summary of Investment Portfolio (as at August 31, 2021)

The summary of investment portfolio may change due to ongoing portfolio transactions of the investment fund. A quarterly update is available by visiting www.renaissanceinvestments.ca. The Top Positions table shows a fund's 25 largest positions. For funds with fewer than 25 positions in total, all positions are shown. Cash and cash equivalents are shown in total as one position.

A note on forward-looking statements

The management report of fund performance may contain forward-looking statements. Forward-looking statements include statements that are predictive in nature, that depend upon or refer to future events or conditions, or that include words such as “expects”, “anticipates”, “intends”, “plans”, “believes”, “estimates”, or other similar wording. In addition, any statements that may be made concerning future performance, strategies, or prospects and possible future actions taken by the fund, are also forward-looking statements. Forward-looking statements are not guarantees of future performance. These statements involve known and unknown risks, uncertainties, and other factors that may cause the actual results and achievements of the fund to differ materially from those expressed or implied by such statements. Such factors include, but are not limited to: general economic, market, and business conditions; fluctuations in securities prices, interest rates, and foreign currency exchange rates; changes in government regulations; and catastrophic events.

The above list of important factors that may affect future results is not exhaustive. Before making any investment decisions, we encourage you to consider these and other factors carefully. CIBC Asset Management Inc. does not undertake, and specifically disclaims, any obligation to update or revise any forward-looking statements, whether as a result of new information, future developments, or otherwise prior to the release of the next management report of fund performance.
