### Management Discussion of Fund Performance

#### Results of Operations

Renaissance Canadian Core Value Fund (referred to as the *Fund*) Portfolio Advisor is CIBC Asset Management Inc. (referred to as *CAMI*, the *Manager* or the *Portfolio Advisor*). The commentary that follows provides a summary of the results of operations for the six-month period ended February 28, 2022. All dollar figures are expressed in thousands, unless otherwise indicated.

The Fund also had exposure of approximately 20% to global equity securities through investment in Renaissance Global Value Fund, sub-advised by Pzena Investment Management, LLC.

The Fund's net asset value increased by 1% during the period, from \$67,872 as at August 31, 2021 to \$68,406 as at February 28, 2022. Positive investment performance was partially offset by net redemptions of \$3,707, resulting in an overall increase in net asset value.

Class A units of the Fund posted a return of 6.4% for the period. The Fund's benchmark, the S&P/TSX Composite Index (referred to as the *primary benchmark*), returned 4.0% for the same period. The Fund's return is after the deduction of fees and expenses, unlike the benchmark's return. See the section *Past Performance* for the returns of other classes of units offered by the Fund.

The COVID-19 pandemic continued to be a major influence on the global economy and financial markets during the period. With the emergence of COVID-19 vaccines, global financial markets reopened, supporting above-trend growth and inflation. This also caused interest rates to rise throughout 2021, which negatively impacted the information technology sector. Value-oriented securities outperformed growth stocks.

The spread of the COVID-19 Omicron variant late in 2021 resulted in new lockdown restrictions. Despite these restrictions, the Canadian economy expanded at a relatively strong pace. The increase was driven by strong business inventory accumulation, along with higher residential investment. Consumer spending also advanced slightly. However, economic activity was pressured late in the period amid

protests that slowed trade activity with the U.S. and added to supply-chain disruptions.

Geopolitical tensions in Ukraine grew as Russia built up its military presence around the country. Ultimately, Russia began a military invasion of Ukraine, which was answered with severe economic and financial sanctions from the West.

The Bank of Canada (referred to as the *BoC*) held its benchmark overnight interest rate steady at 0.25%, believing the Canadian economy still warranted monetary support. But the BoC did end its bond purchases, which were initiated at the onset of the pandemic. With inflation running at elevated levels, the BoC suggested that it might raise interest rates in the middle of 2022 to help tame consumer prices.

In the U.S., the U.S. Federal Reserve Board (referred to as the *Fed*) held the target range for its federal funds rate steady at 0.00%–0.25%. Towards the middle of the period, the Fed acknowledged that inflation might not be transitory, and appropriate action might need to be taken to slow the growth in consumer prices. The Fed began to slow its asset-purchase program, while suggesting an increase in interest rates was likely in response to surging inflation.

A significant underweight exposure to the information technology sector contributed to the Fund's performance in an environment of rising interest rates. A significant overweight allocation to the energy sector also contributed to performance. Higher commodity prices, arising from growing demand, economic sanctions on Russia and limited supply, led to outperformance. A slight underweight exposure to the industrials sector contributed to performance. Though there was outperformance from the Fund's railway holdings, many other industrials stocks faced operational challenges given supply-chain issues.

Individual contributors to performance included underweight holdings in Shopify Inc. and Lightspeed Commerce Inc. as the information technology sector was negatively affected by rising interest rates. Overweight holdings in Crescent Point Energy Corp. and Genovus

Energy Inc. also contributed as these energy stocks benefited from higher commodity prices and strong operating results.

A slight underweight allocation to the materials sector detracted from the Fund's performance as gold stocks performed well. An underweight exposure to higher-risk energy stocks, such as Tourmaline Oil Corp. and ARC Resources Ltd., also detracted from performance as they outperformed amid higher commodity prices. Overweight holdings in Restaurant Brands International Inc. and Starbucks Corp. were detractors from performance. Pandemic-related store closures and delays in reopening caused weak operating results.

The Fund received a dividend from H&R REIT consisting of Primaris REIT shares, which was added for its attractive valuation and yield. Existing holdings in Bank of Montreal, The Toronto-Dominion Bank, Royal Bank of Canada and Enbridge Inc. were increased during the period. The Portfolio Advisor used market volatility to add to existing holdings in strong businesses with improving outlooks. A holding in Cominar REIT was eliminated from the Fund as it was acquired by a consortium of buyers. Holdings in Nutrien Ltd., Barrick Gold Corp., Finning International Inc. and Brookfield Asset Management Inc. were trimmed as stock prices rose.

The Fund's lower portfolio turnover rate was due to the Portfolio Advisor's satisfaction with the portfolio positioning of the Fund.

### Recent Developments

The escalating conflict between Ukraine and the Russian Federation has resulted in significant volatility and uncertainty in financial markets. It is unclear what further actions may be taken by governments and the resulting impact on global economies, businesses, financial markets, and the Fund's performance. While the situation remains fluid, the Fund continues to monitor ongoing developments and the impact to investment strategies.

Effective September 1, 2021, CAMI, as Manager, pays the Fund's operating expenses, other than certain expenses, in exchange for the payment by the Fund of a fixed administration fee. This fee applies to all of the Fund's classes, other than Class O, and is equal to a specified percentage of the net asset value of each class of the Fund.

The COVID-19 pandemic and the restrictions imposed by governments around the world to limit its spread have disrupted the global economy and financial markets in unprecedented and unpredictable ways. The COVID-19 outbreak may adversely affect the performance of the Fund.

### Related Party Transactions

Canadian Imperial Bank of Commerce (referred to as *CIBC*) and its affiliates have the following roles and responsibilities with respect to the Fund, and receive the fees described below in connection with their roles and responsibilities.

#### *Manager, Trustee, and Portfolio Advisor of the Fund*

CAMI, a wholly-owned subsidiary of CIBC, is the Fund's Manager, Trustee, and Portfolio Advisor. As Manager, CAMI receives management fees with respect to the Fund's day-to-day business and operations, calculated based on the net asset value of each respective class of units of the Fund as described in *Management Fees*.

The Manager pays the Fund's operating expenses (other than certain Fund costs) in respect of the classes of units of the Fund (except Class

O unit), which may include but are not limited to, operating and administrative costs; regulatory fees; audit, and legal fees and expenses; trustee, safekeeping, custodial, and any agency fees; and investor servicing costs and costs of unitholder reports, prospectuses, Fund Facts, and other reports, in exchange for the Fund paying a fixed rate administration fee (plus applicable GST/HST) to the Manager with respect to those classes of units. For Class O units, no fixed administration fee will be charged. The Manager pays the Fund's operating expenses (other than certain Fund costs) allocated to Class O units of the Fund. The fixed administration fee payable by the Fund, may, in any particular period, exceed or be lower than the expenses we incur in providing such services to the Fund.

As Trustee, CAMI holds title to the Fund's property (cash and securities) on behalf of its unitholders. As Portfolio Advisor, CAMI provides, or arranges to provide for, investment advice and portfolio management services to the Fund. CAMI also compensates dealers in connection with their marketing activities regarding the Fund. From time to time, CAMI may invest in units of the Fund.

#### *Distributor*

Dealers and other firms sell units of the Fund to investors. These dealers and other firms include CAMI's related dealers such as the CIBC Investor's Edge discount brokerage division of CIBC Investor Services Inc. (referred to as *CIBC ISI*), the CIBC Imperial Service division of CIBC ISI, and the CIBC Wood Gundy division of CIBC World Markets Inc. (referred to as *CIBC WM*). CIBC ISI and CIBC WM are wholly-owned subsidiaries of CIBC.

CAMI may pay sales commissions and trailing commissions to these dealers and firms in connection with the sale of units of the Fund. These dealers and other firms may pay a portion of these sales commissions and trailing commissions to their advisors who sell units of the Fund to investors.

#### *Brokerage Arrangements and Soft Dollars*

CAMI generally delegates trading and execution authority to the portfolio sub-advisors and does not, in its capacity as portfolio advisor, receive any goods or services directly through soft dollar arrangements.

The Portfolio Advisor and any portfolio sub-advisors make decisions, including the selection of markets and dealers and the negotiation of commissions, with respect to the purchase and sale of portfolio securities, certain derivative products and the execution of portfolio transactions. Brokerage business may be allocated by the Portfolio Advisor and any portfolio sub-advisors to CIBC WM and CIBC World Markets Corp., each a subsidiary of CIBC. CIBC WM and CIBC World Markets Corp. may also earn spreads on the sale of fixed income securities, other securities, and certain derivative products to the Fund. A spread is the difference between the bid and ask prices for a security in the applicable marketplace, with respect to the execution of portfolio transactions. The spread will differ based upon various factors such as the nature and liquidity of the security.

Dealers, including CIBC WM and CIBC World Markets Corp., may furnish goods and services, other than order execution, to the Portfolio Advisor and any portfolio sub-advisors when they process trades through them (referred to in the industry as "soft-dollar" arrangements).

These goods and services are paid for with a portion of the brokerage commissions and assist the Portfolio Advisor and any portfolio sub-advisor with investment decision-making services for the Fund or relate directly to the execution of portfolio transactions on behalf of the Fund. As per the terms of the portfolio sub-advisory agreements, such soft dollar arrangements are in compliance with applicable laws.

The fees and spreads for services of the Custodian directly related to the execution of portfolio transactions by the Fund are paid by CAMI and/or dealer(s) directed by CAMI, up to the amount of the credits generated under soft dollar arrangements from trading on behalf of the Fund during that month.

In addition, the Manager may enter into commission recapture arrangements with certain dealers with respect to the Fund. Any commission recaptured will be paid to the Fund.

During the period, the Fund paid brokerage commissions and other fees of \$2,327 to CIBC WM and \$121 to CIBC World Markets Corp. Spreads associated with fixed income and other securities are not ascertainable and, for that reason, cannot be included when determining these amounts.

#### *Fund Transactions*

The Fund may enter into one or more of the following transactions (referred to as the *Related Party Transactions*) in reliance on the standing instructions issued by the Independent Review Committee (referred to as the *IRC*):

- invest in or hold equity securities of CIBC or issuers related to a portfolio sub-advisor;
- invest in or hold non-exchange-traded debt securities of CIBC or an issuer related to CIBC, with terms-to-maturity of 365 days or more, issued in a primary offering and in the secondary market;
- make an investment in the securities of an issuer for which CIBC WM, CIBC World Markets Corp., or any affiliate of CIBC (referred to as a *Related Dealer* or the *Related Dealers*) acts as an underwriter during the offering of the securities or at any time during the 60-day period following the completion of the offering of such securities (in the case of a "private placement" offering, in accordance with the Private Placement Relief Order and the policies and procedures relating to such investment);
- purchase equity or debt securities from, or sell them to, a Related Dealer, where it is acting as principal;
- undertake currency and currency derivative transactions where a related party is the counterparty;
- purchase securities from or sell securities to another investment fund or a managed account managed by the Manager or an affiliate (referred to as *inter-fund trades* or *cross-trades*); and
- engage in in-specie transfers by receiving portfolio securities from, or delivering portfolio securities to, a managed account or another investment fund managed by the Manager or an affiliate, in respect of a purchase or redemption of units of the Fund, subject to certain conditions.

At least annually, the IRC reviews the Related Party Transactions for which they have issued standing instructions. The IRC is required to advise the Canadian securities regulatory authorities, after a matter has been referred to or reported to it by the Manager, if it determines that an investment decision was not made in accordance with conditions imposed by securities legislation or the IRC in any Related Party Transactions requiring its approval.

#### *Custodian*

CIBC Mellon Trust Company is the custodian of the Fund (referred to as the *Custodian*). The Custodian holds all cash and securities for the Fund and ensures that those assets are kept separate from any other cash or securities that the custodian might be holding. The Custodian also provides other services to the Fund including record-keeping and processing of foreign exchange transactions. The fees and spreads for services of the Custodian directly related to the execution of portfolio transactions by the Fund are paid by CAMI and/or dealer(s) directed by CAMI, up to the amount of the credits generated under soft dollar arrangements from trading on behalf of the Fund during that month. All other fees and spreads for the services of the Custodian are paid by the Manager. CIBC owns a 50% interest in the Custodian.

#### *Service Provider*

CIBC Mellon Global Securities Services Company (referred to as *CIBC GSS*) provides certain services to the Fund, including securities lending, fund accounting and reporting, and portfolio valuation. Such servicing fees are paid by the Manager. CIBC indirectly owns a 50% interest in CIBC GSS.

\* Ratio has been annualized.

<sup>4</sup> This information is presented as at February 28, 2022 and August 31 of the period(s) shown.

<sup>5</sup> Management expense ratio is based on the total expenses of the fund (excluding commissions and other portfolio transaction costs), incurred by or allocated to a class of units for the period shown, expressed as an annualized percentage of the daily average net asset value of that class during the period.

<sup>6</sup> The decision to waive and/or absorb management fees and operating expenses is at the discretion of the Manager. The practice of waiving and/or absorbing management fees and operating expenses may continue indefinitely or may be terminated at any time without notice to unitholders.

<sup>7</sup> The trading expense ratio represents total commissions and other portfolio transaction costs before income taxes expressed as an annualized percentage of the daily average net asset value during the period. Spreads associated with fixed income securities trading are not ascertainable and, for that reason, are not included in the trading expense ratio calculation.

<sup>8</sup> The portfolio turnover rate indicates how actively the portfolio advisor and/or portfolio sub-advisor manages the portfolio investments. A portfolio turnover rate of 100% is equivalent to a fund buying and selling all of the securities in its portfolio once in the course of the period. The higher a portfolio turnover rate in a period, the greater the trading costs payable by a fund in the period, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a fund.

## Management Fees

The Fund pays CAMI an annual management fee to cover the costs of managing the Fund. Management fees are based on the Fund's net asset value and are calculated daily and paid monthly. Management fees are paid to CAMI in consideration for providing, or arranging for the provision of, management, distribution, and portfolio advisory services. Advertising and promotional expenses, office overhead expenses related to the Manager's activities, and trailing commissions are paid by CAMI out of the management fees received from the Fund. The Fund is required to pay applicable taxes on the management fees paid to CAMI. Refer to the simplified prospectus for the annual management fee rate for each class of units.

For Class O units, the management fee is negotiated with and paid by, or as directed by, unitholders or dealers and discretionary managers on behalf of unitholders. Such Class O management fee will not exceed the Class F unit management fee rate.

The following table shows a breakdown of the services received in consideration of the management fees, as a percentage of the management fees collected from the Fund for the period ended February 28, 2022. These amounts do not include waived fees or absorbed expenses.

	Class A Units	Class F Units
Sales and trailing commissions paid to dealers	45.16%	0.00%
General administration, investment advice, and profit	54.84%	100.00%

## Past Performance

The performance data provided assumes reinvestment of distributions only and does not take into account sales, redemption, distribution, or other optional charges payable by any unitholder that would have reduced returns. Past performance does not necessarily indicate how a fund will perform in the future.

The Fund's returns are after the deduction of fees and expenses, and the difference in returns between classes of units is primarily due to differences in the management expense ratio. See *Financial Highlights* section for the management expense ratio.

## Year-by-Year Returns

These bar charts show the annual performance of each class of units of the Fund for each of the periods shown, and illustrate how the performance has changed from period to period. These bar charts show, in percentage terms, how an investment made on September 1 would have increased or decreased by August 31, unless otherwise indicated.

### Class A Units

<sup>a</sup> 2022 return is for the period from September 1, 2021 to February 28, 2022.

#### **A note on forward-looking statements**

The management report of fund performance may contain forward-looking statements. Forward-looking statements include statements that are predictive in nature, that depend upon or refer to future events or conditions, or that include words such as “expects”, “anticipates”, “intends”, “plans”, “believes”, “estimates”, or other similar wording. In addition, any statements that may be made concerning future performance, strategies, or prospects and possible future actions taken by the fund, are also forward-looking statements. Forward-looking statements are not guarantees of future performance. These statements involve known and unknown risks, uncertainties, and other factors that may cause the actual results and achievements of the fund to differ materially from those expressed or implied by such statements. Such factors include, but are not limited to: general economic, market, and business conditions; fluctuations in securities prices, interest rates, and foreign currency exchange rates; changes in government regulations; and catastrophic events.

The above list of important factors that may affect future results is not exhaustive. Before making any investment decisions, we encourage you to consider these and other factors carefully. CIBC Asset Management Inc. does not undertake, and specifically disclaims, any obligation to update or revise any forward-looking statements, whether as a result of new information, future developments, or otherwise prior to the release of the next management report of fund performance.
