

Annual Management Report of Fund Performance

for the financial year ended August 31, 2021

All figures are reported in Canadian dollars unless otherwise noted.

This annual management report of fund performance contains financial highlights but does not contain the complete annual financial statements of the investment fund. You can get a copy of the annual financial statements at your request, and at no cost, by calling toll-free at 1-888-888-3863, by writing to us at Renaissance Investments, 1500 Robert-Bourassa Boulevard, Suite 800, Montreal, QC, H3A 3S6, or by visiting our website at www.renaissanceinvestments.ca or SEDAR at www.sedar.com.

Unitholders may also contact us using one of these methods to request a copy of the investment fund's interim financial report, proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure.

Management Discussion of Fund Performance

Investment Objective and Strategies

Investment Objective: Renaissance Ultra Short-Term Income Private Pool (referred to as the *Pool*) seeks to obtain a high level of interest income while maintaining security of capital and liquidity by investing primarily in high-quality debt obligations of Canadian and U.S. issuers.

Investment Strategies: The Pool invests primarily in securities issued by the Government of Canada, provincial or territorial governments and their agencies, Canadian chartered banks, loan or trust companies, and Canadian corporations.

Risk

The Pool is a Canadian short-term fixed income fund that is suitable for short-term investors who can tolerate low investment risk.

For the period ended August 31, 2021, the Pool's overall level of risk remains as discussed in the simplified prospectus.

Results of Operations

The Pool's Portfolio Advisor is CIBC Asset Management Inc. (referred to as *CAMI*, the *Manager* or the *Portfolio Advisor*). The commentary that follows provides a summary of the results of operations for the period ended August 31, 2021. All dollar figures are expressed in thousands, unless otherwise indicated.

The Pool's net asset value increased by 44% during the period, from \$2,741 as at August 31, 2020 to \$3,934 as at August 31, 2021. Net sales of \$1,208 were partially offset by negative investment performance, resulting in an overall increase in net asset value.

Class A units of the Pool posted a return of -0.6% for the period. The Pool's benchmark, the FTSE Canada 91 Day T-Bill Index (referred to as the *benchmark*), returned 0.1% for the same period. The Pool's return is after the deduction of fees and expenses, unlike the benchmark's return. See the section *Past Performance* for the returns of other classes of units offered by the Pool.

Canadian economic growth was relatively strong over the period, aided by a strong real estate market. Easing lockdown restrictions contributed to an increase in consumer spending. However, economic

growth declined in the second quarter of 2021 amid new lockdown restrictions in response to a rise in COVID-19 cases.

Canada's inflation rate began to increase at the beginning of the period, largely in response to stronger demand as lockdown restrictions eased and businesses reopened. The inflation rate then increased sharply over the second half of the period in response to strong demand combined with lower prices in the previous year. Contributing to the increase were higher prices for gasoline and food.

Canada's labour market recovery was uneven but showed improvement. As lockdown restrictions eased, the economy added jobs. The opposite happened when the economy resumed lockdowns. Canada's unemployment rate ended the period lower than where it had begun.

The Bank of Canada (referred to as the *BoC*) held its benchmark overnight interest rate steady at 0.25%, believing the Canadian economy still required accommodative support to make a full recovery. While the inflation rate rose sharply, the BoC stated that it believed this was largely temporary. The BoC commented that its policy rate would remain at low levels until its inflation and employment goals are reached.

Towards the end of the period, the BoC began scaling back its bond purchases in response to improving economic conditions. Meanwhile, the BoC raised its outlook for inflation and growth in the second half of the period, raising expectations that it would increase its benchmark overnight interest rate sooner than expected.

The U.S. Federal Reserve Board (referred to as the *Fed*) held the target range for its federal funds rate steady at 0.00%–0.25%, while maintaining its bond purchases. The Fed believed its ultra-low key policy rate continued to be warranted given the risks still posed by the pandemic. Furthermore, while there has been progress in the U.S. economic recovery, the Fed commented that not enough progress had been made to scale back its bond purchases. The Fed signalled its intention to leave its policy rate unchanged until inflation and employment reach its goals on a sustainable level.

The Pool continued to hold a significant overweight allocation to commercial bonds. In a low-interest-rate environment, exposure to commercial paper helped the Pool to maintain a higher running yield, which contributed to performance. Holdings in floating-rate notes also contributed to the Pool's performance as these securities have a higher running yield than government bonds, commercial paper or bankers' acceptance notes.

Recent Developments

Effective September 1, 2021, CAMI, as manager, will pay the Pool's operating expenses, other than certain expenses, in exchange for the payment by the Pool of an annual fixed rate administration fee. This fee will apply to all of the Pool's classes, other than Class O, and will be equal to a specified percentage of the net asset value of each class of the Pool.

The COVID-19 pandemic and the restrictions imposed by governments around the world to limit its spread have disrupted the global economy and financial markets in unprecedented and unpredictable ways. The COVID-19 outbreak may adversely affect the performance of the Pool.

Related Party Transactions

Canadian Imperial Bank of Commerce (referred to as *CIBC*) and its affiliates have the following roles and responsibilities with respect to the Pool, and receive the fees described below in connection with their roles and responsibilities.

Manager, Trustee, and Portfolio Advisor of the Pool

CAMI, a wholly-owned subsidiary of CIBC, is the Pool's Manager, Trustee, and Portfolio Advisor. As Manager, CAMI receives management fees with respect to the Pool's day-to-day business and operations, calculated based on the net asset value of each respective class of units of the Pool as described in *Management Fees*. As Trustee, CAMI holds title to the Pool's property (cash and securities) on behalf of its unitholders. As Portfolio Advisor, CAMI provides, or arranges to provide for, investment advice and portfolio management services to the Pool. CAMI also compensates dealers in connection with their marketing activities regarding the Pool. From time to time, CAMI may invest in units of the Pool.

Distributor

Class A units of the Pool may be purchased only through CIBC Wood Gundy, a division of CIBC World Markets Inc. (referred to as *CIBC WM*). Other classes of units of the Pool may be purchased through dealers and other firms, including CAMI's related dealers such as the CIBC Investor's Edge discount brokerage division of CIBC Investor Services Inc. (referred to as *CIBC ISI*), the CIBC Imperial Service division of CIBC ISI, and CIBC WM. CIBC ISI and CIBC WM are wholly-owned subsidiaries of CIBC. CAMI may pay sales commissions and trailing commissions to the dealers in connection with the sale of units of the Pool. These dealers and other firms may pay a portion of these sales commissions and trailing commissions to their advisors who sell units of the Pool to investors.

Brokerage Arrangements and Soft Dollars

The Portfolio Advisor makes decisions, including the selection of markets and dealers and the negotiation of commissions, with respect to the purchase and sale of portfolio securities, certain derivative

products and the execution of portfolio transactions. Brokerage business may be allocated by the Portfolio Advisor to CIBC WM and CIBC World Markets Corp., each a subsidiary of CIBC. CIBC WM and CIBC World Markets Corp. may also earn spreads on the sale of fixed income securities, other securities, and certain derivative products to the Pool. A spread is the difference between the bid and ask prices for a security in the applicable marketplace, with respect to the execution of portfolio transactions. The spread will differ based upon various factors such as the nature and liquidity of the security.

Dealers, including CIBC WM and CIBC World Markets Corp., may furnish goods and services, other than order execution, when CAMI processes trades through them (referred to in the industry as "soft-dollar" arrangements). These goods and services are paid for with a portion of brokerage commissions and assist CAMI with investment decision-making services for the Pool or relate directly to the execution of portfolio transactions on behalf of the Pool.

The fees and spreads for services of the Custodian directly related to the execution of portfolio transactions by the Pool are paid by CAMI and/or dealer(s) directed by CAMI, up to the amount of the credits generated under soft dollar arrangements from trading on behalf of the Pool during that month.

In addition, CAMI may enter into commission recapture arrangements with certain dealers with respect to the Pool. Any commission recaptured will be paid to the Pool.

During the period, the Pool did not pay any brokerage commissions or other fees to CIBC WM or CIBC World Markets Corp. Spreads associated with fixed income and other securities are not ascertainable and, for that reason, cannot be included when determining these amounts.

Pool Transactions

The Pool may enter into one or more of the following transactions (referred to as the *Related Party Transactions*) in reliance on the standing instructions issued by the Independent Review Committee (referred to as the *IRC*):

- invest in or hold equity securities of CIBC or issuers related to a portfolio sub-advisor;
- invest in or hold non-exchange-traded debt securities of CIBC or an issuer related to CIBC, with terms-to-maturity of 365 days or more, issued in a primary offering and in the secondary market;
- make an investment in the securities of an issuer for which CIBC WM, CIBC World Markets Corp., or any affiliate of CIBC (referred to as a *Related Dealer* or the *Related Dealers*) acts as an underwriter during the offering of the securities or at any time during the 60-day period following the completion of the offering of such securities (in the case of a "private placement" offering, in accordance with the Private Placement Relief Order and the policies and procedures relating to such investment);
- purchase equity or debt securities from, or sell them to, a Related Dealer, where it is acting as principal;
- undertake currency and currency derivative transactions where a related party is the counterparty;

- purchase securities from or sell securities to another investment fund or a managed account managed by the Manager or an affiliate (referred to as *inter-fund trades* or *cross-trades*); and
- engage in in-specie transfers by receiving portfolio securities from, or delivering portfolio securities to, a managed account or another investment fund managed by the Manager or an affiliate, in respect of a purchase or redemption of units of the Pool, subject to certain conditions.

At least annually, the IRC reviews the Related Party Transactions for which they have issued standing instructions. The IRC is required to advise the Canadian securities regulatory authorities, after a matter has been referred to or reported to it by the Manager, if it determines that an investment decision was not made in accordance with conditions imposed by securities legislation or the IRC in any Related Party Transactions requiring its approval.

Custodian

CIBC Mellon Trust Company is the custodian of the Pool (referred to as the *Custodian*). The Custodian holds all cash and securities for the Pool and ensures that those assets are kept separate from any other cash or securities that the custodian might be holding. The Custodian also provides other services to the Pool including record-keeping and processing foreign exchange transactions. The fees and spreads for services of the Custodian directly related to the execution of portfolio transactions by the Pool are paid by CAMI and/or dealer(s) directed by CAMI, up to the amount of the credits generated under soft dollar arrangements from trading on behalf of the Pool during that month. All other fees and spreads for the services of the Custodian are paid by the Manager and charged to the Pool on a recoverable basis. CIBC owns a 50% interest in the Custodian.

Service Provider

CIBC Mellon Global Securities Services Company (referred to as *CIBC GSS*) provides certain services to the Pool, including securities lending, fund accounting and reporting, and portfolio valuation. Such servicing fees are paid by the Manager and charged to the Pool on a recoverable basis. CIBC indirectly owns a 50% interest in CIBC GSS.

Renaissance Ultra Short-Term Income Private Pool

Financial Highlights

The following tables show selected key financial information about the Pool and are intended to help you understand the Pool's financial performance for the period ended August 31.

The Pool's Net Assets per Unit¹ - Class A Units

	2021	2020	2019	2018	2017
Net Assets, beginning of period	\$ 9.93	\$ 10.00	\$ 9.97	\$ 9.93	\$ 9.92
Increase (decrease) from operations:					
Total revenue	\$ 0.04	\$ 0.19	\$ 0.21	\$ 0.14	\$ 0.10
Total expenses	(0.09)	(0.09)	(0.09)	(0.09)	(0.09)
Realized gains (losses) for the period	–	–	–	–	–
Unrealized gains (losses) for the period	(0.01)	(0.04)	–	0.02	–
Total increase (decrease) from operations²	\$ (0.06)	\$ 0.06	\$ 0.12	\$ 0.07	\$ 0.01
Distributions:					
From income (excluding dividends)	\$ 0.02	\$ 0.14	\$ 0.09	\$ 0.03	\$ 0.01
From dividends	–	–	–	–	–
From capital gains	–	–	–	–	–
Return of capital	–	–	–	–	–
Total Distributions³	\$ 0.02	\$ 0.14	\$ 0.09	\$ 0.03	\$ 0.01
Net Assets, end of period	\$ 9.84	\$ 9.93	\$ 10.00	\$ 9.97	\$ 9.93

¹ This information is derived from the Pool's audited annual financial statements.

² Net assets and distributions are based on the actual number of units outstanding at the relevant time. The total increase (decrease) from operations is based on the weighted average number of units outstanding during the period.

³ Distributions were paid in cash, reinvested in additional units of the Pool, or both.

Ratios and Supplemental Data - Class A Units

	2021	2020	2019	2018	2017
Total Net Asset Value (000s)⁴	\$ 2,727	\$ 2,741	\$ 3,760	\$ 4,264	\$ 4,511
Number of Units Outstanding⁴	277,031	276,206	375,885	427,674	454,503
Management Expense Ratio⁵	0.88%	0.87%	0.87%	0.88%	0.88%
Management Expense Ratio before waivers or absorptions⁶	4.25%	4.18%	3.65%	3.38%	4.47%
Trading Expense Ratio⁷	0.00%	0.00%	0.00%	0.00%	0.00%
Portfolio Turnover Rate⁸	115.15%	67.60%	44.88%	102.47%	57.78%
Net Asset Value per Unit	\$ 9.84	\$ 9.93	\$ 10.00	\$ 9.97	\$ 9.93

⁴ This information is presented as at August 31 of the period(s) shown.

⁵ Management expense ratio is based on the total expenses of the fund (excluding commissions and other portfolio transaction costs), incurred by or allocated to a class of units for the period shown, expressed as an annualized percentage of the daily average net asset value of that class during the period.

⁶ The decision to waive and/or absorb management fees and operating expenses is at the discretion of the Manager. The practice of waiving and/or absorbing management fees and operating expenses may continue indefinitely or may be terminated at any time without notice to unitholders.

⁷ The trading expense ratio represents total commissions and other portfolio transaction costs before income taxes expressed as an annualized percentage of the daily average net asset value during the period. Spreads associated with fixed income securities trading are not ascertainable and, for that reason, are not included in the trading expense ratio calculation.

⁸ The portfolio turnover rate indicates how actively the portfolio advisor and/or portfolio sub-advisor manages the portfolio investments. A portfolio turnover rate of 100% is equivalent to a fund buying and selling all of the securities in its portfolio once in the course of the period. The higher a portfolio turnover rate in a period, the greater the trading costs payable by a fund in the period, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a fund.

Management Expense Ratio⁵	0.00%	0.00%	0.00%	0.00%	0.00%
Management Expense Ratio before waivers or absorptions⁵	0.00%	0.00%	0.00%	0.00%	0.00%
Trading Expense Ratio⁷	0.00%	0.00%	0.00%	0.00%	0.00%
Portfolio Turnover Rate⁸	115.15%	67.60%	44.88%	102.47%	57.78%
Net Asset Value per Unit	\$ 9.29	\$ 9.29	\$ 9.26	\$ 9.33	\$ 9.78

⁴ This information is presented as at August 31 of the period(s) shown.

⁵ Management expense ratio is based on the total expenses of the fund (excluding commissions and other portfolio transaction costs), incurred by or allocated to a class of units for the period shown, expressed as an annualized percentage of the daily average net asset value of that class during the period.

⁶ The decision to waive and/or absorb management fees and operating expenses is at the discretion of the Manager. The practice of waiving and/or absorbing management fees and operating expenses may continue indefinitely or may be terminated at any time without notice to unitholders.

⁷ The trading expense ratio represents total commissions and other portfolio transaction costs before income taxes expressed as an annualized percentage of the daily average net asset value during the period. Spreads associated with fixed income securities trading are not ascertainable and, for that reason, are not included in the trading expense ratio calculation.

⁸ The portfolio turnover rate indicates how actively the portfolio advisor and/or portfolio sub-advisor manages the portfolio investments. A portfolio turnover rate of 100% is equivalent to a fund buying and selling all of the securities in its portfolio once in the course of the period. The higher a portfolio turnover rate in a period, the greater the trading costs payable by a fund in the period, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a fund.

Management Fees

The Pool pays CAMI an annual management fee to cover the costs of managing the Pool. Management fees are based on the net asset value of the Pool and are calculated daily and paid monthly. Management fees are paid to CAMI in consideration for providing, or arranging for the provision of, management, distribution, and portfolio advisory services. Advertising and promotional expenses, office overhead expenses related to the Manager's activities, and trailing commissions are paid by CAMI out of the management fees received from the Pool. The Pool is required to pay applicable taxes on the management fees paid to CAMI. Refer to the simplified prospectus for the annual management fee rate.

For Class O units, the management fee is negotiated with and paid by, or as directed by, unitholders or dealers and discretionary managers on behalf of unitholders. Such Class O management fee will not exceed the Class F-Premium unit management fee rate.

The following table shows a breakdown of the services received in consideration of the management fees, as a percentage of the management fees collected from the Pool for the period ended August 31, 2021. These amounts do not include waived fees or absorbed expenses.

	Class A Units	Premium Class Units	Class F-Premium Units	Class N-Premium Units
Sales and trailing commissions paid to dealers	60.87%	22.66%	0.00%	0.00%
General administration, investment advice, and profit	39.13%	77.34%	100.00%	100.00%

Past Performance

The performance data provided assumes reinvestment of distributions only and does not take into account sales, redemption, distribution, or other optional charges payable by any unitholder that would have reduced returns. Past performance does not necessarily indicate how a fund will perform in the future.

The Pool's returns are after the deduction of fees and expenses. See *Financial Highlights* section for the management expense ratio.

Year-by-Year Returns

These bar charts show the annual performance of each class of units of the Pool for each of the periods shown, and illustrate how the performance has changed from period to period. The bar charts show, in percentage terms, how much an investment made on September 1 would have increased or decreased by August 31, unless otherwise indicated.

Class A Units

Premium Class Units

^a 2016 return is for the period from May 31, 2016 to August 31, 2016.

Class F-Premium Units

^a 2016 return is for the period from May 31, 2016 to August 31, 2016.

Class N-Premium Units

^a 2016 return is for the period from May 31, 2016 to August 31, 2016.

Class O Units

^a 2016 return is for the period from May 31, 2016 to August 31, 2016.

Annual Compound Returns

This table shows the annual compound return of each class of units of the Pool for each indicated period ended on August 31, 2021. The annual compound return is compared to the Pool's benchmark.

The Pool's benchmark is the FTSE Canada 91 Day T-Bill Index.

	1 Year	3 Years	5 Years	10 Years*	or	Since Inception*	Inception Date
Class A units	-0.6%	0.4%	0.4%	0.4%			November 24, 1999
FTSE Canada 91 Day T-Bill Index	0.1%	1.1%	0.9%	0.9%			
Premium Class units	-0.5%	0.3%	0.4%			0.4%	May 31, 2016
FTSE Canada 91 Day T-Bill Index	0.1%	1.1%	0.9%			0.9%	
Class F-Premium units	-0.4%	-0.2%	-0.2%			-0.2%	May 31, 2016
FTSE Canada 91 Day T-Bill Index	0.1%	1.1%	0.9%			0.9%	
Class N-Premium units	-0.4%	-0.2%	-0.2%			-0.2%	May 31, 2016
FTSE Canada 91 Day T-Bill Index	0.1%	1.1%	0.9%			0.9%	
Class O units	0.0%	0.1%	0.2%			0.1%	May 31, 2016
FTSE Canada 91 Day T-Bill Index	0.1%	1.1%	0.9%			0.9%	

* If a class of units has been outstanding for less than 10 years, the annual compound return since inception is shown.

FTSE Canada 91 Day T-Bill Index measures the returns attributable to 91-day Treasury Bills.

A discussion of the Pool's relative performance compared to its benchmark can be found in *Results of Operations*.

Renaissance Ultra Short-Term Income Private Pool

Summary of Investment Portfolio (as at August 31, 2021)

The summary of investment portfolio may change due to ongoing portfolio transactions of the investment fund. A quarterly update is available by visiting www.renaissanceinvestments.ca. The Top Positions table shows a fund's 25 largest positions. For funds with fewer than 25 positions in total, all positions are shown. Cash and cash equivalents are shown in total as one position.

<i>Portfolio Breakdown</i>	<i>% of Net Asset Value</i>	<i>Top Positions</i>	<i>% of Net Asset Value</i>

A note on forward-looking statements

The management report of fund performance may contain forward-looking statements. Forward-looking statements include statements that are predictive in nature, that depend upon or refer to future events or conditions, or that include words such as “expects”, “anticipates”, “intends”, “plans”, “believes”, “estimates”, or other similar wording. In addition, any statements that may be made concerning future performance, strategies, or prospects and possible future actions taken by the fund, are also forward-looking statements. Forward-looking statements are not guarantees of future performance. These statements involve known and unknown risks, uncertainties, and other factors that may cause the actual results and achievements of the fund to differ materially from those expressed or implied by such statements. Such factors include, but are not limited to: general economic, market, and business conditions; fluctuations in securities prices, interest rates, and foreign currency exchange rates; changes in government regulations; and catastrophic events.

The above list of important factors that may affect future results is not exhaustive. Before making any investment decisions, we encourage you to consider these and other factors carefully. CIBC Asset Management Inc. does not undertake, and specifically disclaims, any obligation to update or revise any forward-looking statements, whether as a result of new information, future developments, or otherwise prior to the release of the next management report of fund performance.
