

Global Conservative Growth Investing

Open architecture gives Renaissance Investments access to investment managers worldwide to deliver a broad range of forward-looking, client-focused solutions. Our Investment Management Research (IMR) team manages risk on your behalf through on-going review of our internal and external investment managers.

INTRODUCING OUR
GLOBAL EQUITY
PARTNER...

WALTER SCOTT

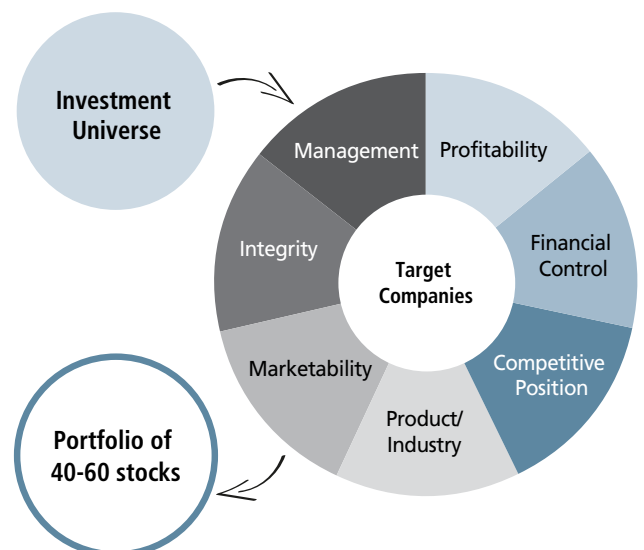

Founded in 1983, Walter Scott & Partners Limited (“Walter Scott”) remains true to its fundamental, research driven, benchmark unaware, buy and hold investment approach to global equity—conservative growth investing.

Walter Scott aims to deliver significant per annum real returns to clients over the long term. To achieve this, Walter Scott employs a buy and hold strategy, seeking companies capable of compounding wealth consistently. To this purpose, Walter Scott follows these principles:

- A growth investment mandate
- A patient, long-term approach
- A global approach which views the world as a single universe of opportunity, without bias among regions, countries and sectors

BENEFIT FROM WALTER SCOTT'S GLOBAL EQUITY GROWTH EXPERTISE AND UNIQUE INVESTMENT PROCESS:

- #1 Walter Scott identifies and researches companies whose business franchises, financial models and management strategies appear best positioned to achieve **20% wealth generation per annum**.
- #2 The investment universe **undergoes intensive analysis**, with particular focus on seven areas of investigation: profitability, financial control, management, marketability, product/industry, integrity, competitive position.
- #3 All investment proposals are discussed by the investment team and must gain **unanimous** approval before the investment executive can vote on whether the stock will enter the portfolio. The investment executive is comprised of the four most senior and experienced investment professionals at the firm. On the other hand, a single, well-researched dissenting argument can trigger a sale.
- #4 Analysis of environmental, social and governance (**ESG factors**) is fully integrated into the investment process. Walter Scott believes that good ESG practices and successful businesses typically go hand-in-hand.

IMPROVE RISK-RETURN PROFILE BY ADDING GLOBAL EXPOSURE

Diversifying a portfolio with global investments improves your risk-return profile while accessing investment opportunities that are not readily available in Canada. As illustrated below, adding global exposure to a portfolio of Canadian equities can help to increase its risk-adjusted returns.

TEN-YEAR RISK VERSUS RETURN

Hypothetical portfolio consisting of only the S&P/TSX Composite Index and the MSCI World Index, from April 2010 to April 2020. Source: Morningstar Direct, as of April 30, 2020.

ACCESS WALTER SCOTT'S CONSERVATIVE GLOBAL GROWTH APPROACH WITH TWO FUNDS AND ETFs:

RENAISSANCE GLOBAL GROWTH FUND

Diversified portfolio consisting primarily of equity securities of companies located anywhere in the world.

RENAISSANCE INTERNATIONAL EQUITY FUND

Diversified portfolio of equity securities of foreign companies located in Europe, the Far East and the Pacific Rim.
